Subject: [EXTERNAL] : Comments LPG Expansion

To whom it may concern,

I stand with my colleague, City Councilor Pro-Tempore, Pedro Espinal in opposition to expansion of Sea 3 in the Port of Providence. For too many years, the Southside of our City has housed industrial operations that threaten the air quality and pollutes the neighborhood. Allowing this project would mean an increase in propane gas transportation without any real investment in the community or acknowledgment of the neighborhoods needs.

City Councilor, Kat Kerwin
