Re: Invenergy Thermal Development LLC's Application to Construct and Operate the Clear
River Energy Center in Burrillville, Rhode Island
Docket No.: SB-2015-16

Dear Mr. Bianco:

Per the Energy Facility Siting Board's October 20, 2016 Order, on behalf of Invenergy Thermal Development LLC and the Clear River Energy Project ("Invenergy"), please find enclosed an original and ten (10) copies of Invenergy's written status update and accompanying exhibits. As the exhibits are too large to file electronically, Invenergy has contemporaneously mailed hard copies of the exhibits to all counsel of record.

Please let me know if you have any questions.

Very truly yours,

ALAN M. SHOER

Re: Docket No. SB-2015-06
In re: Invenergy Thermal Development LLC's Application to Construct the Clear River Energy Center Power Plant in Burrillville, RI

Joint Letter Submission Regarding Water Supply Agreement

Dear Dr. Bianco:

We wanted to take an opportunity to provide you with an update as to the discussions by and between Clear River Energy LLC ("CREC") and the City of Woonsocket ("Woonsocket") with regard to the above-referenced matter.

At this point, CREC has worked with the Woonsocket Department of Public Works to undertake initial feasibility review. Remaining feasibility review with the Woonsocket Department Public Works is in process.

Thereafter, CREC endeavored to accomplish two tasks. The first task was to determine whether the City was amenable to entering into a Water Supply Agreement. The second task, if the City was amenable to entering into a Water Supply Agreement, is whether mutually agreeable terms could be reached.

From a timing perspective, CREC could not have such discussions until the 2016 Rhode Island General Election was concluded. Moreover, in accord with the Woonsocket City Charter, the City Council was not sworn in until December 6, 2016.

Since that time, CREC has had an opportunity to meet jointly with the Woonsocket City Council, the Woonsocket Administration and their counsel. The Council, subject to conducting its own due diligence and seeking community input, is receptive to continued talks.

The following tentative schedule has been established with the goal of reaching agreeable terms and conditions to be incorporated into a Water Supply Agreement:

1. As many work sessions as the Council deems necessary to undertake adequate diligence;
2. January 6, 2017 —a public hearing on the terms and conditions of a Water Supply Agreement to be presented; and
3. The week of January 9, 2017 – an open meeting that would allow the Council to vote on terms and conditions for incorporation into a Water Supply Agreement conditioned upon Rhode Island Energy Facility Siting Board approval of the CREC Project.

We will provide you with a further update once one becomes available. In the interim, should you have any questions regarding this matter, please do not hesitate to contact our offices.

Counsel for the City of Woonsocket,

William E. O'Gara
Pannone Lopes Devereaux & West LLC

December 5, 2016

RE: Land Option Purchase Agreement/Clear River Energy Center Project

To Whom It May Concern:

This is to confirm that Invenergy Thermal Development LLC (“Invenergy”) has delivered to Algonquin Gas Transmission, LLC (“Algonquin”) the Third Option Fee on or before the Third Period Option Expiration Date, as more fully described in Section 4 of the Land Option Purchase Agreement dated December 19, 2014 (the “Option”).

The Option for the Clear River Energy Center between Invenergy and Algonquin is therefore in full force and effect, with a term that is valid through December 19, 2017.

A handwritten signature in black ink, appearing to read "M. Dirrane".
