**Interstate Reliability Project** :

National Grid's Responses to the  
EFSB's 1<sup>st</sup> Set of Data Requests

REQUEST EFSB 1-2:

Section 4.7.2 (page 4-20) of the Environmental Report notes that one Open House was held in Rhode Island in September 2011. Does National Grid intend to hold any additional community-based Open Houses? If so, please provide details on the date(s) and location(s) and copies of any materials to be distributed at said Open House.

RESPONSE:

National Grid has held two Open Houses in Rhode Island. Prior to the referenced September 2011 Open House, National Grid held an initial community-based Open House in Burrillville in November 2008. National Grid does not plan to hold any additional Open Houses, however its Stakeholder Relations department continues to communicate with abutters and other residents.
