**Re: The Narragansett Electric Company d/b/a National Grid
G-185S 115kV Transmission Line Reconductoring Project**

Dear Patti:

I am enclosing for filing an original and five (5) copies of a Notice of Intent Application and supporting Environmental Report on behalf of The Narragansett Electric Company d/b/a National Grid for the G-185S 115kV Transmission Line Reconductoring Project. This Project involves the reconductoring of approximately 5.2 miles of the G-185S Transmission Line between Kent County Substation in Warwick and the Old Baptist Road Tap Point in East Greenwich, Rhode Island.

Because the project involves the relocation of a line of more than 1,000 feet, the Notice of Intent is filed under 1.6(f) of the EFSB Regulations. Section 1.6(g) requires that the Board hold a hearing in one or more of the cities or towns affected by an application under this section.

If you have any questions or would like additional copies of the filing, please give me a call. Please acknowledge receipt of this filing on the enclosed copy of this letter and application and return them with my messenger.

Sincerely,

Peter V. Lacouture
