Hello,

The construction or expansion of any fracked gas power plant is an irresponsible decision for Rhode Island. My family lives in several Rhode Island towns including Burrillville. The impact of pollution and destruction of our national and global environment will be devastating. No number of jobs or business deals is worth the price of allowing this-sighted power plant to happen.

I hold our leaders responsible for the choice of disregarding public wishes if the plant is allowed in Rhode Island.

Halcyon Westall
