**SAY "NO" TO THE
WALLUM LAKE ROAD
POWER PLANT**

March 31, 2016

I, Kenneth W Putnam, Jr. of 510 Wallum Lake Road, Pascoag, RI

Hereby say, NO!! to the proposed Power Plant on Wallum Lake Road.

I am concerned with aquifer, taking our water in the area that could affect our wells.

Polution to the wetlands (DEM take notice) as a builder I have had to comply to the DEM regulations over the years and insist this company comply also, as I had to in the course of MY business.

Also, air polution that will affect our health, outdoor activities, polution settling on our ponds, both Wallum Lake (affecting the hospitals' drinking and water usage) and also Wilson Pond for swimming and fishing (polutated fish).

The noise factor with our home being only (1) one mile away from the proposed site, destroying peace and enjoyment of outdoor activities.

I am also concerned about MTBE in the Pascoag water system, that will be piped at high rate of speed to town sewer systems. What will happen to the folks in town if their sewage backs up or they have a sewage pipe that needs to be worked on, will that affect our town workers health?

There are so many reasons to say "NO" to this proposed Invenergy project of Clear River/Wallum Lake Road, and mine is a definate NO!

Signed: Kenneth W Putnam Jr
