RE: Docket 3760 - Earnings Sharing Mechanism and Distribution Adjustment <a href="Charge Filing">Charge Filing</a>

Dear Ms. Massaro:

In accordance with the provisions of the Distribution Adjustment Clause ("DAC") Tariff, RIPUC NG No. 101, Section 3, Schedule A, enclosed please find ten (10) copies of the pre-filed testimony of Sharon Partridge regarding the Company's earnings sharing for the period ended June 30, 2006. This filing also contains the supplemental testimony of Peter C. Czekanski, which updates the August 1, 2006 DAC filing to address the acquisition by National Grid of the assets and gas business of New England Gas Company in Rhode Island, as well as to incorporate the earnings sharing calculation. Mr. Czekanski's supplemental testimony proposes updated factors for effect November 1, 2006.

Thank you for your attention to this filing. If you have any questions, please do not hesitate to contact me at (401) 784-7667.

Very truly yours,

Laura S. Otton

Laura S. Olton

National Grid RIPUC Docket No. 3760 Sharon Partridge Direct Testimony

DIRECT TESTIMONY

OF

SHARON PARTRIDGE

- 1 Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.
- 2 A. My name is Sharon Partridge. My business address is 100 Weybosset Street,
- 3 Providence, RI 02903.
- 4 Q. WHAT IS YOUR POSITION, PROFESSIONAL AND EDUCATIONAL
- 5 BACKGROUND
- I am Vice President Special Projects, Finance for National Grid. I have over 20 years 6 A. experience in the gas utility industry in Rhode Island. I joined the New England 7 8 Division of Southern Union Company (the "Company") as Vice President responsible for regulatory, finance and gas supply in 2001. Prior to joining Southern Union, I was 9 Vice President, Chief Financial Officer and Secretary of Valley Resources, Inc. I have 10 testified before the Rhode Island Public Utilities Commission on a variety of rate 11 12 matters, gas adjustment filings and in several refund dockets. I graduated from Bryant College in 1978 with a Bachelor of Science degree in Business Administration and 13 14 earned an MBA from Providence College in 1990.

#### 15 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS PROCEEDING?

16 A. In Docket 3401, Order No. 17381, the Commission investigated, modified and
17 approved a base-rate settlement between the Division, The Energy Council of RI and
18 the Company ("the Settlement Agreement") that requires the Company to file an
19 earnings sharing calculation by September 1 of each year as part of an incentive-based

1		Earnings Sharing Mechanism ("ESM"). The purpose of my testimony is to calculate
2		the earnings subject to the ESM for fiscal year ("FY") ended June 30, 2006 and to
3		support the adjustments to the FY2005 earnings sharing calculation in accordance with
4		the modifications outlined by the Commission in Docket 3760 at the Open Meeting
5		conducted on May 11, 2006 submitted to the Commission in a letter from the
6		Company dated June 9, 2006.
7	Q.	ARE THERE ANY ATTACHMENTS TO YOUR TESTIMONY?
8	A.	Yes, I am sponsoring the following Attachments:
9		SP-1 Earnings Sharing Mechanism pursuant to Order No. 17971
-10		SP-2 ADIT Calculation
11		SP-3 Letter from New England Gas Company to Rhode Island Public
12		Utilities Commission dated June 9, 2006
13		SP-4 FERC Form No. 2 Annual Filing
14	Q.	PLEASE EXPLAIN WHAT HAS TRANSPIRED WITH THE ACQUISITION
15		OF THE NEW ENGLAND GAS BUSINESS IN RHODE ISLAND BY
16		NATIONAL GRID.
17	A.	On August 24, 2006, The Narragansett Electric Company, doing business as "National
18		Grid" in Rhode Island ("National Grid") acquired the assets and gas business of
19		Southern Union Company in Rhode Island, doing business as New England Gas

1 Company. On that date, National Grid assumed the responsibilities for the regulated gas distribution business in Rhode Island, formerly operated by Southern Union 2 Company under its division referred to as New England Gas. The acquisition was 3 4 completed after the Division of Public Utilities and Carriers ("Division") approved the 5 transaction by order dated July 25, 2006, in Division Docket No. D-06-13. As a condition to the Division's approval, National Grid agreed to honor the existing rate 6 7 plan agreement of New England Gas until a new rate plan is put in place. The Division also accepted all of the tariffs of New England Gas as the tariffs of National 8 9 Grid. 10 Q. DOES THE TRANSACTION AFFECT THIS FILING? No. Because National Grid has assumed the tariffs and has agreed to honor the 11 A. 12 existing rate plan, the regulatory filings that were previously required of New England Gas Company under Southern Union ownership are now simply being filed and 13 14 implemented by National Grid. Thus, the organizational change has no impact on the 15 Commission's consideration of this filing. 16 ARE ELECTRIC AND GAS RATE ACCOUNTING COMBINED AS A Q. 17 RESULT OF THE ACQUISITION? 18 No. While National Grid is one corporation under the legal name of The Narragansett A. 19 Electric Company in Rhode Island, and will eventually operate under a single corporate identity, the gas and electric operations from a regulatory accounting and 20 rate perspective will be treated separately. As such, there will be a separate set of 21

1	regulatory accounting books tracking the electric and gas businesses separately,
2	including separate cost of services for regulatory earnings purposes. Thus, from a
3	rate perspective, the Commission will regulate the rates and tariffs of the gas and
4	electric business separately. For that reason as well, the acquisition has no impact on
5	this filing.

# Q. HAS THE COMPANY CALCULATED THE RETURN ON EQUITY FOR THE FISCAL YEAR ENDED JUNE 30,2006.

Yes. The Settlement Agreement requires the earnings to be calculated each year based 8 A. 9 on financial results for the 12-month period ending June 30 (Section II.F.1). The determination of earnings subject to the ESM is based on a benchmark return on 10 equity of 11.25 percent, excluding the Company's portion of non-firm margins 11 (Section II.F.5). The earnings-sharing formula requires that any annual earnings over 12 an 11.25 percent return on equity, up to and including 100 basis points (12.25 13 14 percent), will be shared 50 percent to customers and 50 percent to the Company. Any 15 earnings in excess of a 12.25 percent return on equity will be shared 75 percent to 16 customers and 25 percent to the Company.

17

18

19

20

As discussed below, the Company calculated a return on equity for the period ending June 30, 2006 of 4.34% percent (Attachment SP-1, at page 1 of 10). Based on this return, the Company did not exceed the 11.25% threshold to calculate an Earnings Sharing amount.

1	Q.	PLEASE IDENTIFY THE PRIMARY REASONS FOR THE DECREASE IN
2		EARNINGS AVAILABLE FOR COMMON EQUITY FROM THE PRIOR
3		YEAR.
4	A.	The combination of warmer weather and decreased use per customer were the primary
5		reasons for the decrease in earnings when compared to the prior year. Fiscal 2006 was
6		9.4% warmer than the prior year, this coupled with high prices and customer
7		conservation, resulted in a decrease in base revenues from firm sales customers of
8		approximately \$5.8 million. Additionally, there was an increase in uncollectible and
9		depreciation expenses.
10 11	Q.	HOW DID THE COMPANY CALCULATE THE RETURN ON EQUITY FOR PURPOSES OF THE ESM?
12	A.	The Settlement Agreement states that the return on equity will be calculated by
13		dividing the net income available for common equity by the common equity
14		applicable to rate base (Section II.F.1).
15	Q.	PLEASE EXPLAIN THE CALCULATION OF NET INCOME AVAILABLE
16		FOR COMMON EQUITY FOR PURPOSES OF THE ESM.
17	A.	In accordance with the Settlement Agreement and Order No. 17971, the Company
18		calculated net income available for common equity based on operating income for the
19		twelve months ended June 30, 2006, less applicable interest and preferred dividends

1		and adjusted to reflect established Commission ratemaking principles, including the
2		impact of the Weather Normalization Clause (Section II.F.1).
3		The Company's calculation of net income available for common equity is set forth in
4		Attachment SP-1, at page 2. As shown, for the period ending June 30, 2006, the
5		Company calculated net income available for common equity of \$4,763,627.
6	Q.	DID THE COMPANY MAKE ANY ADJUSTMENTS TO OPERATING
7		REVENUES, EXPENSES AND/OR INTEREST CHARGES?
8 -	A.	Yes. The Company made the following adjustments to Operating Revenues, Expenses
9		and/or Interest Charges:
10		(1) The Weather Normalization Clause requires the Company to return to or
11		receive from customers an amount sufficient to provide the Company with
12		normal weather margins around a 2 percent deadband. In fiscal 2006, winter
13		weather was warmer than normal, resulting in \$927,000 of margins to be
14		collected from customers through the DAC (Testimony of Witness Czekanski,
15		at page 10), which has the effect of increasing operating income for purposes
16		of the earnings-sharing calculation. Accordingly, the Operating Revenues
17		reflected on Attachment SP-1, at page 2, line 3; include the future collection of

revenues from customers in relation to the Weather Normalization Clause

18

19

(\$927,000).

1	(2)	The Company's portion of non-firm margins are excluded from the earnings-
2		sharing calculation because non-firm margins in excess of the amount in base
3		rates, or \$1,600,000, are shared 75 percent with customers and 25 percent to
4		the Company through a separate mechanism (Section II.H). In FY2006, the
5		Company's portion of non-firm margins was \$474,073.
6	(3)	The Company and the Division agreed in this Docket to remove stored gas
7		inventory from rate base and to eliminate carrying costs on stored gas
8		inventory from revenues. This resulted in a decrease to Operating Revenues of
9		\$3,130,242.
10	(4)	The Company excluded unbilled revenues from the earnings-sharing
11		calculation consistent with the methodology applied in Docket 3401. This
12		resulted in a decrease to Operating Revenues of \$1,198,651.
13	(5)	Although not specified in the Settlement Agreement, the Company excluded
14.		the effect of the FY2005 ESM over-earnings of \$423,222.
15	(6)	In accordance with the Settlement Agreement, the Company included the
16		investors' share of annual net merger savings, or \$2,049,000, in operating
17		expenses (Section II.F.3). The Company also decreased operating expenses by
18		\$868,028 to reflect unbilled gas costs.

1	(7)	The New England Division Incentive Compensation for FY 2006 was subject to
2		an earnings floor, but was paid based on goals tied to an individual's job
3		performance that benefits both customers and the Company. The incentive
4		compensation paid to non-executives has been included in operating expenses.
5		The Company has excluded \$255,098 of executive incentive compensation
6		pursuant to prior Commission decision.
7	(8)	The Company included the Corporate Allocation of overhead expenses, less
8		all amounts associated with the Corporate Incentive Compensation Plan. The
9		Company also reviewed the Corporate Allocation and determined that
10		lobbying-related costs were not included.
11	(9)	The Company has appropriately classified the Divisional lobbying-related
12		costs as Non-Operating and excluded these amounts from the ESM calculation.
13	(10)	For accounting purposes, the Company booked all expenses relating to the
14		mercury-release incident below the line. Therefore, these expenses are
15		excluded from Operating Expense for the purpose of calculating the earnings
16		sharing.
17	(11)	In accordance with Order No. 17971, the Company excluded 50 percent of
18		advertising and public relation costs relating to the promotion of the corporate
19		public image. This resulted in a decrease in Operating Expense of \$68,956.

I		(12) In Docket 3690, the Company accepted the Division's position to amortize the
2		costs related to a Health, Safety and Environmental Study over a three-year
3		period. Operating Expenses were increased by \$191,500 for the second of a
4		three-year amortization of the cost for the study.
5 6		(13) For "Other Interest Expense," the Company included only those costs
		associated with Customer Deposits. All other charges not considered as a
7		normal part of the gas distribution business were recorded below the line and
8		not included in the ESM Calculation.
9		(14) The Company removed from operating expenses the net incentive related to
10		the Gas Purchase Incentive Plan and recorded this below the line (\$127,201).
11		(15) The Company excluded amounts relating to Contributions in Aid of
12		Construction ("CIAC") from the rate base.
13	Q.	HAS THE COMPANY UPDATED ITS CALCULATION OF ACCUMULATED
14		DEFERRED INCOME TAX ("ADIT")?
15	A.	During FY2006 the Company's tax department calculated deferred income taxes
16		related to accelerated depreciation, excluding amounts booked pursuant to FAS 109
17		for the Rhode Island portion of the New England Gas division. To perform this
18		calculation, the Company rolled forward the ADIT balance related to depreciation (tax
19		versus book) less FAS 109 from the time of the merger (September 30, 2000) through

1		June 30, 2006. Attachment SP-2 presents the roll-forward calculation. The tax
2		depreciation amount is related to Utility Plant only and includes reversals related to
3		Bonus Depreciation. The roll-forward schedule includes the actual ADIT for the six
4		
		months ended December 31, 2005 and an estimate for the six months ended June 30,
5		2006.
6	Q.	WHAT WAS THE FEDERAL INCOME TAX RATE USED BY THE
7		COMPANY TO CALCULATE OPERATING INCOME BEFORE INTEREST
8		EXPENSE?
9	A.	The Company calculated federal income taxes at the statutory rate of 35 percent, as
10		shown on Attachment SP-1 at page 3.
		on the off the office of the page of
11	Q.	HOW DID THE COMPANY CALCULATE LONG-TERM DEBT INTEREST,
12		SHORT-TERM DEBT INTERST AND PREFERRED STOCK DIVIDENDS?
		THE TALL DIVIDENDS:
13	A.	The Settlement Agreement specifies the capital structure to be used in computing the
14		cost of capital (Section II.F.2). The imputed capital structure is as follows:
15		Short-term Debt 8.8%
16		Long-term Debt 45.7%
17		Preferred Stock 1.9%
18		Common Equity 43.6%
19		Therefore, as shown on Attachment SP-1, at page 4, the Company computed the cost
20		of long-term debt by multiplying the percentage of long-term debt applicable to rate

base at the cost of 7.81 percent, as stated in the Settlement Agreement (Section II.F.2).

Likewise, preferred dividends were calculated by multiplying rate base applicable to preferred stock at the rate of 9.93 percent, as stated in the Settlement Agreement. The Company computed the cost of short-term debt by multiplying rate base applicable to short-term debt times the 12-month average cost of short-term debt for Southern Union or 4.73 percent as calculated in Attachment SP-1 page 10.

#### 7 Q. DID THE COMPANY MAKE ANY OTHER CALCULATIONS TO DERIVE

#### THE TOTAL NET INCOME AVAILABLE FOR COMMON EQUITY?

8

9 A. Yes. In accordance with the Settlement Agreement, the Company included funds
10 associated with the allowance for funds used during construction in calculating
11 operating income (Section II.F.1).

#### 12 Q. HOW DID THE COMPANY CALCULATE RATE BASE UNDER THE ESM?

13 As required by the Settlement Agreement, average rate base for the fiscal year ending A. 14 June 30, 2006 is based on a five-quarter average, as set forth in Attachment SP-1 at page 5 (Section II.F.1). In conformity with the Settlement Agreement, the Company 15 16 excluded environmental response costs and prepaid taxes from rate base. However, 17 the Company included construction work in progress in rate base. The Company 18 computed the working capital allowance pursuant to the method approved in Docket 19 No. 2286 (Attachment SP-1 at page 6), consistent with prior years ESM calculations. 20 The deferred debits in rate base include Y2K costs, amortized at the rate of \$240,000

1		per year, and exclude costs associated with legacy customer-information systems. As
2		discussed above, the Company excluded Stored Gas Inventory and CIAC from the rate
3		base calculation.
4	Q.	HOW DID THE COMPANY DETERMINE COMMON EQUITY
5		APPLICABLE TO RATE BASE?
6	A.	In accordance with the capital structure set forth in Section II.F.2, the Company
7		multiplied the average rate base, as discussed above, times 43.6 percent to determine
8		common equity applicable to rate base (Attachment SP-1, at page 5).
9	Q.	PLEASE EXPLAIN THE EARNINGS-SHARING CALCULATION ON
10		ATTACHMENT SP-1.
11	Α	Attachment SP-1 at page 1, calculates the earnings to be shared with customers based
12		on the sharing percentages required in the Settlement Agreement. Lines 1 through 3
13		summarize the calculation of average common equity. Line 5 is the net income
14		available for common equity and Line 6 is the return on common equity for the period
15		ending June 30, 2006.
1.6		
16		Since Line 6 is less than 11.25 percent, Lines 8 through 10 calculating the after-tax
17		earnings to be shared with customers is zero and as such no amount will be returned to
18		the customers.

National Grid RIPUC Docket No. 3760 Sharon Partridge Direct Testimony September 1, 2006 Page 13 of 13

1	Q.	HAS THE COMPANY PREPARED AN ADJUSTMENT TO THE INTERIM
2		FY2005 ESM BASED ON THE COMMISSION'S DECISIONS AT THE OPEN
3		<b>MEETING ON MAY 11, 2006?</b>
A	٨	Var In the state of the state o
4	A.	Yes. In accordance with the Commission's statements at the May 11, 2006 Open
5		Meeting, the Company submitted a letter dated June 9, 2006 calculating adjustments
6		to the FY2005 earnings sharing calculation and reflecting the Commission's May 11,
7		2006 statements. The letter is provided as Attachment SP-3.
8	Q.	HAS THE COMPANY COMPLETED THE FY2005 FERC FORM No 2?
9	Α.	Yes, the FY2006 FERC Form 2 is provided as Attachment SP-4.
10	Q.	DOES THIS CONCLUDE YOUR TESTIMONY?

11

A.

Yes.

# ANNUAL REPORT OF NATURAL GAS COMPANIES

(Class A and Class B)

OF

#### New England Gas Company, A Division of Southern Union Company

(Exact legal name of respondent)

If name was changed during year, show also the previous name and date of change.

100 Weybosset Street, Providence, RI 02903

(Address of principal business office at end of year)

TO THE

#### PUBLIC SERVICE COMMISSION

OF THE

STATE OF RHODE ISLAND

FOR THE

Year Ended June 30, 2006

Name, title, address and telephone number (including area code), of the person to be contacted concerning this report:

#### INSTRUCTIONS FOR FILING THE FERC FORM NO. 2

#### **GENERAL INFORMATION**

#### I. Purpose

This form is designed to collect financial and operational information from major interstate natural gas companies subject to the jurisdiction of the Federal Energy Regulatory Commission. This report is a nonconfidential public use form.

II. Who Must Submit

Each Major natural gas company which meets the filing requirements of 18 CFR 260.1 must submit this form

NOTE: Major means having combined gas transported or stored for a fee exceeding 50 million 0th in each of the 3 previous calendar years.

#### III. What and Where to Submit

(a) Submit the electronic medium in accordance with the procedures specified in 18 CFR 385.2011 and an original and four (4) copies of this form to:

Office of the Secretary Federal Energy Regulatory Commission Washington, DC 20426

Retain one copy of this report for your files.

(b) Submit immediately upon publication, four (4) copies of the latest annual report to stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. (Do not include monthly and quarterly reports. Indicate by checking the appropriate box on Page 3, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared.) Mail these reports to:

Chief Accountant Federal Energy Regulatory Commission Washington, DC 20426

- (c) For the CPA certification, submit with the original submission of this form, a letter or report (not applicable to respondents classified as Class C or Class D prior to January 1, 1984) prepared in conformity with current standards of reporting which will:
  - contain a paragraph attesting to the conformity, in all material respects, of the schedules listed below with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and

#### **GENERAL INFORMATION**

(ii) be signed by independent certified public accountants or independent licensed public accountants, certified or licensed by a regulatory authority of a State or other political subdivision of the United States (See 18 CFR 158.10-158.12 for specific qualifications.)

Schedules	Reference <u>Pages</u>
Comparative Balance Sheet	110-113
Statement of Income	114-116
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122

Insert the letter or report immediately following the cover sheet of the original and each copy of this form.

(d) Federal, State and Local Governments and other authorized users may obtain additional blank copies to meet their requirement free of charge from:

Public Reference and Files Maintenance Branch Washington, DC 20426 (202) 208-2356

IV. When to Submit:

Submit this report form on or before April 30th of the year following the year covered by this report.

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for this collection of information is estimated to average 2,475 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or and aspect of this collection of information, including suggestions for reducing this burden, to the Federal Energy Regulatory Commission, Washington, DC 20426 (Attention: Michael Miller, ED-12.4); and to the Office of Information and Regulatory Affairs. Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission).

You shall not be penalized for failure to respond to this collection of information unless the collection of information displays a valid OMB control number.

### **GENERAL INSTRUCTIONS**

- Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.).
   Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or Dth) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use the current year amounts for income accounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, either
  - (a). Enter the words "Not Applicable" on the particular page(s), or
  - (b). Omit the page(s) and enter "NA", "NONE", or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" at the top of each page is applicable only to resubmissions (see VII. below).
- VI. Indicate negative amounts (such as decreases) by enclosing the figures in parenthesis ( ).
- VII. When making revisions, resubmit the electronic medium and only those pages that have been changed from the original submission. Submit the same number of copies as required for filing the form. Include with the resubmission the Identification and Attestation, page 1. Mail dated resubmissions to:

Chief Accountant

Federal Energy Regulatory Commission

Washington, DC 20426

- VIII. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement (8 1/2 by 11 inch size) to the page being supplemented. Provide the appropriate identification information, including the title(s) of the page and the page number supplemented.
- IX. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- X. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.
- XI. Report all gas volumes in MMBtu and Dth.
- XII. Respondents may submit computer printed schedules (reduced to 8 1/2 by 11) instead of the schedules in the FERC Form 2 if they are in substantially the same format.
- XIII. Report footnotes on pages 551 and 552. Sort data on page 551 by page number. Sort data on page 552 by footnote number. The page number component of the footnote reference is the first page of a schedule whether it is a single page schedule or a multi-page schedule. Even if a footnote appears on a later page of a multi-page schedule the footnote will only reference the first page of the schedule. The first page of a multi-page schedule now becomes a proxy for the entire schedule. For example, Gas Plant in Service ranges across pages 204 through 209. A footnote on page 207 would contain a page reference of 204.

#### DEFINITIONS

- 1. Btu per cubic foot -- The total heating value, expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32F, and under standard gravitational force (980.665 cm. per sec.) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state (called the gross heating value or total heating value)
- Commission Authorization The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- III. Dekatherm A unit of heating value equivalent to 10 therms or 1,000,000 Btu.
- IV. Respondent -- The person, corporation, licensee, agency, authority, or other legal entity or instrumentality on whose behalf the report is made.

#### EXERPTS FROM THE LAW

# (Natural Gas Act; 15 U.S.C. 717-717w)

"Sec 10(a). Every natural gas company shall file with the Commission such annual and other periodic or special reports as the Commission may by rules and regulations or order prescribe as necessary or appropriate to assist the Commission in the proper administration of this act. The Commission may prescribe the manner and form in which such reports shall be made and require from such natural-gas companies specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and liabilities, capitalization, investment and reduction thereof, gross receipts, interest due and paid, depreciation, amortization, and other reserves, costs of facilities, cost of maintenance and operation of facilities for the production, transportation, delivery, use, or sale of natural gas, cost of renewal and replacement of such facilities, transportation, delivery, use, and sale of natural gas...."

"Sec. 16. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, amend, and rescind such orders, rules, and regulations as it may find necessary and appropriate to carry out the provisions of this act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this act; and may prescribe the form or forms of all statements declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and time within which they shall be filed...."

## GENERAL PENALTIES

"Sec. 21(b). Any person who willfully and knowingly violates any rule, regulation, restriction, condition, or order made or imposed by the Commission under authority of this act, shall, in addition to any other penalties provided by law, be punished upon conviction thereof by a fine of not exceeding \$500 for each and every day during which such offense occurs."

GAS	PLANT IN SERVICE (ACCOUNTS	3 101,102,103, and 106)	
Report below the original cost of c		nated basis if necessary, and include	the entries in column

- the prescribed accounts.
- 2. In addition to Account 101, Gas Plant in Service(Classified), this page and the next include Account 102, Gas Plant Purchased or Sold. Account 103, Experimental Ges Plant Unclassified, and Account 106, Completed Construction Not Classified - Gas.
- 3. include in column (c) or (d), as appropriate corrections of additions and retirements for the current or preceding year.
- 4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
  - 5. Classify Account 106 according to prescribed accounts, on an

(c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year. include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior year's unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d),

GAS PLANT IN SE	RVICE (ACCOUNTS 101, 102, 103, AND 106	3) (Continued)	

including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of respondent's reported amount for plant actually in service at end of year.

6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of. Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc.,

and show in column (f) only the offset to the debits or credits to primary account classifications.

- 7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.
- 8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give date of such filing.

GENERAL DESCRIPTION OF	- CONSTRUCTION C	VERHEAD PROCEDURE		
1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.		Show below the computation of a construction rates, in accordance w instructions 3 (17) of the Uniform S 3. Where a net-of-tax rate for borro appropriate tax effect adjustment to manner that clearly indicates the ar	vith the provisions of G system of Accounts, owed funds is used, sh to the computations be	Sas Plant now the low in a
Construction Overhead Administrative and General and Engineering and Supervision:  (A) Components of overhead costs are considered to be administrative salaries a benefits and certain other general costs devoted to general planning and an (B). The proportion of such overhead costs charged to construction is based up (C). The applicable monthly construction overhead is recorded in a clearing acc as a percent of direct costs to construction exclusive of overhead previousi (D). Overhead costs are spread equitably to all construction except certain speciased upon circumstances of construction.  (E) Certain specific jobs may be exempted as company personnel may be direct cases, all salaries and expenses are charged direct.  (F) Overhead charges are indirectly assigned except for those projects describ 2. Allowance for Funds Used During Construction:  (A) AFUDC is charged to all classes of property for those specific jobs requiring those for purchases of equipment which are available for service upon requiring the period of physical construction and termina (D). AFUDC is computed during the period of physical construction and termina (D). Allowance for Funds Rate is calculated in accordance with Order No. 581.  COMPUTATION OF ALLOWANCE F  For line (5), column (d) below, enter the rate granted in the last rate protein preceding 3 years.	idministration of construction an analysis made an count and then capitalize by allocated. cific work orders which needly assigned for the proped in (E).  In more than 30 days to duest.  In a construction of the property o	otion program. Intually, and to construction Inay be exempted Inject. In those Interpreted except Interpre

SECURITIES ISS	UED OR ASSU	MED AND			
SECURITIES REFUNDED	OR RETIRED I	DURING THE YEAR			
Furnish a supplemental statement briefly describing security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. Identify as to Commission authorization numbers and dates.      Provide details showing the full accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses, relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gain or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.		3. Include in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the principal underwriting firm through which the security transactions were consummated.  4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, cite the Commission authorization for the different accounting and state the accounting method.  5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as details of the transactions whereby the respondent undertook to pay obligations of another company. If any unamortized discount, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

## LONG-TERM DEBT (ACCOUNT 221, 222, 223 and 224) (Continued)

- 5. In a supplemental statement, give explanatory details for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.
- If the respondent has pledged any of its long-term debt securities, give particluars (details) in a footnote, including name of the pledgee and purpose of the pledge.
- If the respondent has any long-term securities that have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
- 8. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.
- 9. Give details concerning any long-term debt authorized by a regulatory commission but not yet issued.

## PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given, for the respective income deduction and interest charges accounts.

- (a) Miscellaneous Amortization (Account 425) Describe the nature of items included in this account, the contra account charged, the total of amortizations charges for the year, and the period of amortization.
- of amortizations charges for the year, and the period of amortization.

  (b) Miscellaneous Income Deductions Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2, Life Insurance; 426.3, Penalties; 426.4, Expenditures for Certain Civic, Political and Related Activities; and 426.5, Other Deducitons, of the Uniform System of Accounts.
- Amounts of less than \$250,000 may be grouped by classes within the above accounts.
- (c) Interest on Debt to Associated Companies (Account 430) For each associated company that incurred interest on debt during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.
- (d) Other Interest Expense (Account 431) Report details including the amount and interest rate for other interest charges incurred during the year.

## GAS ACCOUNT - NATURAL GAS

- The purpose of this schedule is to account for the quantity of natural gas received and delivered by the respondent
- 2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.
- 3. Enter in column (c) the Dth as reported in the schedules indicated for the items of receipts and deliveries.
- Indicate in a footnote report the quantities of bundled sales and transportation gas and specify the line on which such quantifies are listed.
- 5. If the respondent operates two or more systems which are not interconnected, submit separate pages for this purpose. Use copies of pages 520.
- 6. Also indicate by footnote the quantities of gas not subject to Commission regulation which did not incur FERC regulatory costs by showing (1) the local distribution volumes another jurisdictional pipeline delivered to the local distribution company portion of the reporting pipeline (2) the quantities that the reporting pipeline

transported or sold through its local distribution facilities or intrastate facilities and which the reporting pipeline received through gathering facilities or intrastate facilities, but not through any of the interstate portion of the reporting pipeline and, (3) the gathering line quantities that were not destined for interstate market or which were not transported through any interstate portion of the reporting pipeline.

that are stored by the reporting pipeline, during the reporting year and also reported as sales, transportation and compression volumes by the reporting pipeline during the same reporting year, (2) the system supply quantities of gas that are stored by the reporting pipeline during the reporting year and which the reporting pipeline intends to sell or transport in a future reporting year, and (3) contract storage quantities.

8. Also indicate the volumes of pipeline production field sales that are included in both the company's total sales figure and the company's total transportation figure. Add additional rows as necessary to report all data, numbered 14.01, 14.02, etc.

National Grid RIPUC Docket No. 3760 Peter C.Czekanski Supplemental Testimony

## SUPPLEMENTAL TESTIMONY

OF

PETER C. CZEKANSKI

1 (	Э.	PLEASE STATE Y	OUR NAME AN	D RUSINESS	ADDRESS
	~ •			RE REPULSE (A LIVE A)	

- 2 A. My name is Peter C. Czekanski. My business address is 100 Weybosset Street,
- 3 Providence, RI 02903.

## 4 Q. HAVE YOU PREVIOUSLY SUBMITTED TESTIMONY IN THIS DOCKET?

5 A. Yes. I previously submitted pre-filed testimony in this docket on August 1, 2006.

## 6 Q. WHAT IS THE PURPOSE OF YOUR SUPPLEMENTAL TESTIMONY?

- 7 A. The purpose of this supplemental testimony is two-fold; first, to recognize the recent
- 8 sale of New England Gas Company's Rhode Island gas operation to National Grid,
- and secondly, to provide a proposed Distribution Adjustment Charge ("DAC") for
- effect November 1, 2006. Specifically this testimony will (1) describe the effect of
- the sale to National Grid, (2) describe updates to various DAC components that were
- included in the August 1, 2006 filing on a preliminary basis, (3) incorporate the
- Earnings Sharing calculation for the fiscal year ending June 30, 2006, and (4) show
- the calculation of the proposed DAC.

## 15 Q. ARE YOU SPONSORING ANY ATTACHMENTS TO YOUR TESTIMONY?

16 A. Yes. I am sponsoring the following Attachments:

17 Updated PCC-1 Summary of Distribution Adjustment Charges

National Grid RIPUC Docket No. 3760 Peter C.Czekanski Supplemental Testimony September 1, 2006 Page 2 of 5

1 2 3 4		Updated PCC-2 Updated PCC-7 PCC-8 PCC-9	System Pressure DAC Reconciliation Earnings Sharing Typical Customer Bill Impacts Calculation
5	Q.	PLEASE EXPLAIN THE	IMPACT OF NATIONAL GRID PURCHASING
6		NEW ENGLAND GAS C	OMPANY'S RHODE ISLAND OPERATION.
7	A.	As described in the testimo	ny of Sharon Partridge, on August 24, 2006, The
8		Narragansett Electric Comp	oany, doing business as National Grid in Rhode Island
9		("National Grid" or "Comp	any") acquired the assets and gas business of Southern
.10		Union Company in Rhode	Island, doing business as New England Gas Company. On
11	•	that date, National Grid ass	umed the responsibilities for the regulated gas distribution
12		business in Rhode Island, for	ormerly operated by New England Gas Company. The
13		acquisition was completed	after the Division of Public Utilities and Carriers
14		("Division") approved the t	ransaction by order dated July 25, 2006, in Division
15		Docket No. D-06-13. As a	condition to the Division's approval, National Grid agreed
16		to honor the existing rate pl	an agreement of New England Gas until a new rate plan is
17		put in place. The Division	also accepted all of the tariffs of New England Gas as the
18		tariffs of National Grid.	
19		Because National Grid has	assumed the tariffs and has agreed to honor the existing
20		rate plan, the regulatory fili	ngs that were previously required of New England Gas

1		Company are now simply being filed and implemented by National Grid. Thus, the
2		organizational change has no impact on the Commission's consideration of this filing
3	Q.	ARE THERE ANY UPDATES TO THE VARIOUS DAC COMPNENTS THAT
4		WERE INCLUDED IN THE AUGUST 1, 2006 FILING?
5	A.	Yes. There are updates to the system pressure calculation and to the DAC
6		reconciliation component.
7	Q.	WHAT CHANGED WITH THE SYSTEM PRESSURE CALCULATION?
8	A.	The Liquefied Natural Gas ("LNG") commodity related costs used in the August 1,
9		2006 system pressure calculation were based on preliminary cost estimates. These
10		costs are now being updated to correspond with the LNG costs included in the
11		Company's September 1, 2006 Gas Cost Recovery ("GCR") filing. Whereas the
12		preliminary LNG commodity related costs allocated to the DAC were \$2,054,894, the
13		final projected costs are \$1,857,787. The Updated Attachment PCC-2 shows the
14		calculation of a System Pressure Factor of \$0.0054 per therm.
15	Q.	WHAT HAS BEEN REVISED ON THE ATTACHMENT PCC-7?
.16	A.	Attachment PCC-7 shows the reconciliation of actual costs and revenues with the
17		previous projections. Whereas actual throughput for the month of July 2006 is now

available, Attachment PCC-7 has been updated accordingly on pages 4 through 6. In

18

- addition, the interest rate has been updated to reflect the recent changes in the prime interest rate. The proposed reconciliation component is (\$0.0009) per therm.
- 3 Q. HAS THE COMPANY PERFORMED THE EARNINGS SHARING
- 4 CALCULATION FOR INCLUSION IN THIS FILING?
- 5 A. Yes. As required under the provisions of the Commission approved settlement 6 agreement in Docket No. 3401, an earnings sharing calculation for the fiscal year 7 ending June 30, 2006 ("FY2006") is included in this docket in the testimony of Ms. 8 Sharon Partridge. That calculation shows that the Company's earnings fell short of 9 the earnings sharing threshold and therefore, there are no FY2006 earnings available 10 for distribution to customers through the DAC. However, the Commission ordered 11 several adjustments to the FY2005 earnings calculation subsequent to implementation 12 of the currently effective DAC. Accordingly, the proposed DAC for this year includes \$310,942 of adjustments associated with the Commission's final decision on 13 14 the FY2005 earnings calculation. A summary of that calculation is provided on 15 Attachment PCC-8.

## 16 Q. WHAT IS THE PROPOSED DAC CHARGE INCORPORATING THESE

## 17 VARIOUS UPDATES?

18 A. The proposed DAC is a charge of \$0.0003 per therm for firm service customers. This

19 rate represents a net increase of \$0.0034 per therm from the currently effective DAC

National Grid RIPUC Docket No. 3760 Peter C.Czekanski Supplemental Testimony September 1, 2006 Page 5 of 5

- rate. Updated Attachment PCC-1 provides a summary of the various components that underlie the proposed DAC rate.
- 3 Q. WHAT IS THE IMPACT OF THE PROPOSED DAC ON CUSTOMERS?
- 4 A. The overall impact of the proposed DAC on typical customer bills is an annual
- 5 increase of approximately four dollars (\$4) or two-tenths of a percent for residential
- 6 heating customers. A summary of typical customer annual bill impacts at various
- 7 levels of consumption and for the various rate classes is shown on Attachment PCC-
- 8 9.
- 9 Q. DOES THIS CONCLUDE YOUR SUPPLEMENTAL TESTIMONY?
- 10 A. Yes.
