**RE: Docket 3761 - Summer Moratorium**

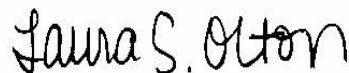

Dear Ms. Massaro:

For the remainder of the summer, National Grid agrees not to terminate service of any residential customers whenever the day-ahead forecast of temperature in metropolitan Providence is 90 degrees or above, as the Company did last week.

Given that the Commission has opened Docket No. 3761 requesting comments on the summer moratorium issue, National Grid will submit additional comments by August 17.

Thank you for your attention to this letter. If you have any further questions, please feel free to contact me at (401) 784-7667.

Very truly yours,

Laura S. Olton
