Re: Interstate Navigation Company – Rate Change Application - Traditional Rates

Dear Luly:

As you know, this office represents Interstate Navigation Company (Interstate).

Enclosed for filing are the original and nine (9) copies of a Rate Change Application. We request new rates to become effective in thirty (30) days in accordance with the R.I.G.L. § 39-3-11 required 30-day notice period.

Also enclosed are the following, which I believe contain all the information required by your Rules:

1. Proposed rate schedule changes which are set forth in the proposed revised tariffs (the current tariffs are also included for comparison).
2. The direct testimony and exhibits of Joshua Linda, Vice President of Interstate, together with an attestation from Susan E. Linda, President and Treasurer of Interstate.
3. The direct testimony and exhibits of Walter E. Edge, Jr., MBA, CPA.
4. The direct testimony and exhibits of David G. Bebyn, CPA.
5. Index of Part Two filing requirements.
6. Proposed notice for your review and comment.

Please also inform me as to any publication requirements for the public notice which we must comply with pursuant to ¶2.4 of your Rules of Practice and Procedure.

Digital files of this document will also be emailed to you.

We are seeking a rate increase of \$2,438,522, which translates to a 30.26% across the board increase.

Please let me know if you need any further information or documentation.

Very truly yours,

Michael R. McElroy

**RULE NO. 5            PETS OR ANIMALS ACCOMPANYING PASSENGERS:**

Animals or pets will not be allowed to accompany passengers aboard ships unless such animals are securely under leash.

**RULE NO. 10          BAGGAGE DEFINED:**

- (a) Baggage may be either personal or sales sample cases defined as follows: Personal luggage or baggage consists of wearing apparel, toilet articles or similar effects in actual use, necessary and appropriate for the wear, use, comfort or convenience of the passenger for the purpose of the trip and not intended for other persons or for sale. Sample cases are those to be used by salesman containing samples or articles or merchandise for sale and for future transportation and not articles for immediate sale forthwith.
- (b) Money, jewelry, negotiable papers or like valuables should not be enclosed in baggage to be checked. This carrier will not be responsible for such articles in baggage.
- (c) All baggage must be enclosed in receptacles such as trunks, valises, suit cases, leather hat boxes or satchels provided with handles, securely locked or otherwise fastened and made of material of sufficient strength and durability and quality to withstand the rapid handling and piling incidental to its transportation.

**RULE NO. 15          BAGGAGE ACCOMPANYING PASSENGERS:**

Each passenger purchasing an adult or child one way ticket will be allowed to transport without charge fifty (50) pounds of luggage or baggage, which must be carried on and off the ship by the passenger at points of embarkation and debarkation.

**RULE NO. 20.        ARTICLES IN AUTOMOBILES:**

Carrier will not be responsible for articles left in automobiles when not loaded in car trunks.

**RULE NO. 25        DAMAGE TO AUTOMOBILES IN TRANSIT:**

Any alleged damage to automobiles aboard ship shall be reported to ship's officers prior to leaving the dock at destination.

**RULE NO. 30 ROUND TRIP TICKET**

The carrier will not be responsible to persons holding round trip tickets for failure to provide return carriage due to weather or mechanical failure; the carrier will honor the return ticket by providing carriage as soon as the weather and the sea are fit for navigation and the equipment is fit to operate.

**RULE NO. 35 OVERSIZED VEHICLES:**

Deck space in general is restricted in the vessels by height and width. Outside deck space (which can accommodate higher vehicles) is also very limited in availability. Therefore, Oversized Vehicles, (which include cars, pick-up trucks, SUV's and vans) that do not fit the standard sized description of a standard car, pick-up truck, or van, will be charged the per linear foot truck rate. A standard car is no more than 18' long, 6' wide, and 5' high. As examples, without limiting the generality of the foregoing, the following are Oversized Vehicles and will be charged the per linear foot truck rate:

- Any vehicles (including but not limited to cars, vans, and pick-ups) that are over 7' in height at the highest point.
- Any vehicles (including but not limited to cars, vans, and pick-ups) that are over 6' in width at the widest point.
- Extended cab pick-up trucks.
- Dual-wheel vehicles (including but not limited to the F350 Ford Series).
- Small dump trucks with a pick up front, and a dump body.
- Stake body trucks.
- Vehicles where racks extend the length of the car, van or pick-up.
- Vehicles that are wider than standard. For example, the vehicle has a utility body containing tool boxes; or the body of the vehicle is not ordinary or standard open backed.
- Vehicles that have ladder racks, or racks that hold pipes or other items on their roof.
- Any vehicles that require the use of the limited outside deck space will be charged the per linear foot truck rate. For example, people will often put their bikes on their car, and they often need outside deck space due to the extra height.

We cannot guarantee them the outside deck space (trucks have priority) and the bikes and racks may have to come down. In such a case, if the bikes and racks come down and the car, van or pick-up is then otherwise standard size, the standard car, van or pick-up truck rate will apply, and the standard charges will also apply to the bikes, racks, or other items removed from the vehicle.

- Any trailers (including but not limited to utility trailers), that are longer or wider than a standard car or are over 6' wide at the widest point or are over 7' high at the highest point.

**RULE NO. 40 TIME LIMIT ON SUITS:**

Suits to recover on any claim for loss of life or bodily injury must be instituted within one (1) year from the day when the death or injury occurred. Suits to recover on any claim other than loss of life or bodily injury, including breach of contract, must be instituted within six (6) months of the scheduled arrival of the passenger or property at destination.

**RULE NO. 45 SCREENING AND INSPECTION:**

Pursuant to Homeland Security Coast Guard Regulations, entering the ferry facility is deemed valid consent to screening or inspection; and failure to consent or submit to screening or inspection will result in denial or revocation of authorization to enter.

**RULE NO. 50 ARTICLES LEFT ABOARD VESSEL:**

Carrier will not be responsible for articles left aboard the vessel. Such shipments shall be charged for at the minimum rates provided in the company's tariffs.

**RULE NO. 55 DAMAGE TO AUTOMOBILES:**

All vehicles are transported at owner's sole risk. Drivers must accompany vehicles. The company will not be responsible for any damages to vehicles while in transport or while they are being loaded and unloaded aboard the vessel. The owner or driver must drive the vehicle on and off the vessel. In the event a vessel is canceled, the car reservation is also canceled. Any alleged damage to automobiles shall be reported to vessel's officers prior to leaving dock at destination.

**RULE NO. 60 CAR RESERVATION CANCELLATIONS:**

There is a \$5.00 charge for each cancellation per one way reservation.

**RULE NO. 65 VEHICLE OVERHANG CHARGE:**

There is a \$5.00 charge per overhang one way in addition to the vehicle fee for each top, front, back, or side overhang, such as car top carriers, bike racks, cooler racks, etc.

**RULE NO. 70 NON-STANDARD VEHICLE CHARGES:**

Vehicles that require more than one car space (such as limousines) may be charged an increased rate based on the amount of deck space required for the vehicle as opposed to a standard car or SUV (see Rule 35).

**RULE NO. 75 BLOCK TICKET SALES CHARGE:**

There is a \$15.00 block ticket sales service charge for all block sales of 25 or more tickets (e.g., weddings, corporate outings and other such events).

**RULE NO. 80 ONLINE SALES CHARGE:**

For all online internet ticket sales, there is a \$2.00 service fee charge to cover postage and handling.

**RULE NO. 85 LOST TICKET CHARGE:**

There is a \$10.00 charge for all lost tickets which are replaced (each way).

**RULE NO. 90 GROUP DISCOUNTS:**

Carrier may from time to time apply a 15% promotional group discount rate to groups of 25 or more.

**RULE NO. 95 ADVANCE TICKET DISCOUNT:**

Carrier may sell advance tickets on a pay for 9 tickets in advance, get 10 tickets basis.

\* Note: Except as set forth below, trucks carrying hazardous materials or dangerous goods, as defined by 49 CFR, Subchapter C Hazardous Materials Regulations, the U.S. Coast Guard, and the International Maritime Organization, can not be transported aboard passenger vessels. Therefore, except as set forth below, when carrying these materials, the vessel must operate strictly as a cargo vessel, and the per foot rate is as set forth above for hazardous trucks. For this purpose, the Carrier will make a vessel available as a cargo vessel on a reservation only, as available basis, at the rate set forth above per same day round trip run from Point Judith to Block Island and return (maximum 4 hours). When available, the cargo vessel must be scheduled to leave Point Judith and complete the run at the discretion of the Carrier.

Trucks which carry sludge for the New Shoreham Sewer Commission will be required to travel on the hazardous truck cargo vessel, and will not be allowed to travel on a vessel with passengers, but will be allowed to travel at the regular truck rate of \$4.40 per linear foot, because the sludge is not a hazardous material or dangerous good as defined by 49 CFR, Subchapter C, but odor from the truck is a problem for ferry passengers. In addition, trucks which carry garbage for the Town of New Shoreham will also be allowed, on an as-needed basis, to travel on the hazardous truck cargo vessel, but at the standard truck rate of \$4.40 per linear foot, or they may travel on the usual passenger ferry.

**RULE NO. 5            PETS OR ANIMALS ACCOMPANYING PASSENGERS:**

Animals or pets will not be allowed to accompany passengers aboard ships unless such animals are securely under leash.

**RULE NO. 10          BAGGAGE DEFINED:**

- (a) Baggage may be either personal or sales sample cases defined as follows: Personal luggage or baggage consists of wearing apparel, toilet articles or similar effects in actual use, necessary and appropriate for the wear, use, comfort or convenience of the passenger for the purpose of the trip and not intended for other persons or for sale. Sample cases are those to be used by salesman containing samples or articles or merchandise for sale and for future transportation and not articles for immediate sale forthwith.
- (b) Money, jewelry, negotiable papers or like valuables should not be enclosed in baggage to be checked. This carrier will not be responsible for such articles in baggage.
- (c) All baggage must be enclosed in receptacles such as trunks, valises, suit cases, leather hat boxes or satchels provided with handles, securely locked or otherwise fastened and made of material of sufficient strength and durability and quality to withstand the rapid handling and piling incidental to its transportation.

**RULE NO. 15          BAGGAGE ACCOMPANYING PASSENGERS:**

Each passenger purchasing an adult or child one way ticket will be allowed to transport without charge fifty (50) pounds of luggage or baggage, which must be carried on and off the ship by the passenger at points of embarkation and debarkation.

**RULE NO. 20.        ARTICLES IN AUTOMOBILES:**

Carrier will not be responsible for articles left in automobiles when not loaded in car trunks.

**RULE NO. 25        DAMAGE TO AUTOMOBILES IN TRANSIT:**

Any alleged damage to automobiles aboard ship shall be reported to ship's officers prior to leaving the dock at destination.

**RULE NO. 30        ROUND TRIP TICKET:**

The carrier will not be responsible to persons holding round trip tickets for failure to provide return carriage due to weather or mechanical failure; the carrier will honor the return ticket by providing carriage as soon as the weather and the sea are fit for navigation and the equipment is fit to operate.

**RULE NO. 35a      OVERSIZED VEHICLES:**

Deck space in general is restricted in the vessels by height and width. Outside deck space (which can accommodate higher vehicles) is also very limited in availability. Therefore, Oversized Vehicles, (which include cars, pick-up trucks, SUVs and vans) that do not fit the standard sized description of a standard car, pick-up truck, or van, will be charged an Oversized Vehicle rate of \$3.75 per linear foot, but only if they are 7' in height or less. If they are over 7' high, see Rule 35b. A standard car is no more than 18' long, 6' wide, and 5' high. As examples, without limiting the generality of the foregoing, the following are Oversized Vehicles that will be charged the per linear foot Oversized Vehicle rate of \$3.75 per linear foot but only if they are 7' in height or less:

- Any vehicles (including but not limited to cars, vans, and pick-ups) that are over 6' in width at the widest point.
- Extended cab pick-up trucks.
- Dual-wheel vehicles (including but not limited to the F350 Ford Series).
- Small dump trucks with a pick up front, and a dump body.
- Stake body trucks.
- Vehicles where racks extend the length of the car, van or pick-up.
- Vehicles that are wider than standard. For example, the vehicle has a utility body containing tool boxes, or the body of the vehicle is not ordinary or standard open backed.
- Vehicles that have ladder racks, or racks that hold pipes or other items on their roof.
- Any trailers (including but not limited to utility trailers), that are longer or wider than a standard car or are over 6' wide at the widest.

**RULE 35b                      VEHICLES OVER 7' HIGH OR THAT REQUIRE OUTSIDE DECK SPACE:**

- Any vehicles (including but not limited to cars, vans, pick-ups, SUVs, and trailers of any type) that are over 7' in height at the highest point will be charged the \$5.75 per linear foot truck rate.
- Any vehicles that require the use of the limited outside deck space will charged the per linear foot truck rate of \$5.75 per linear foot. For example, people will often put their bikes on their car, and they often need outside deck space due to the extra height. We cannot guarantee them the outside deck space (trucks have priority) and the bikes and racks may have to come down. In such a case, if the bikes and racks come down and the car, van or pick-up is then otherwise standard size, the standard car, van or pick-up truck rate will apply, and the standard charges will also apply to the bikes, racks, or other items removed from the vehicle.

**RULE NO. 40            TIME LIMIT ON SUITS:**

Suits to recover on any claim for loss of life or bodily injury must be instituted within one (1) year from the day when the death or injury occurred. Suits to recover on any claim other than loss of life or bodily injury, including breach of contract, must be instituted within six (6) months of the scheduled arrival of the passenger or property at destination.

**RULE NO. 45            SCREENING AND INSPECTION:**

Pursuant to Homeland Security Coast Guard Regulations, entering the ferry facility is deemed valid consent to screening or inspection; and failure to consent or submit to screening or inspection will result in denial or revocation of authorization to enter.

**RULE NO. 50            ARTICLES LEFT ABOARD VESSEL:**

Carrier will not be responsible for articles left aboard the vessel. Such shipments shall be charged for at the minimum rates provided in the company's tariffs.

**RULE NO. 55            DAMAGE TO AUTOMOBILES:**

All vehicles are transported at owner's sole risk. Drivers must accompany vehicles. The company will not be responsible for any damages to vehicles while in transport or while they are being loaded and unloaded aboard the vessel. The owner or driver must drive the vehicle on and off the vessel. In the event a vessel is canceled, the car reservation is also canceled. Any alleged damage to automobiles shall be reported to vessel's officers prior to leaving dock at destination.

**RULE NO. 60            CAR RESERVATION CANCELLATIONS:**

Car reservations may be changed two times 7 full days in advance of departure, then only one time within 7 days of departure. Cancellations made 7 full days in advance will be assessed a \$10.00 cancellation fee for each cancellation. No refunds will be made for cancellations made within 7 days of departure.

**RULE NO. 65            VEHICLE OVERHANG CHARGE:**

There is a \$7.00 additional charge per each way, in addition to the vehicle fee, for items over 7' on top of cars, and the same fee will be charged for items on the front, back and side of vehicles as well as items overhanging the roof of vehicles that exceed the length or width of the vehicle.

**RULE NO. 70            NON-STANDARD VEHICLE CHARGES:**

Vehicles that require more than one car space (such as limousines) may be charged an increased rate based on the amount of deck space required for the vehicle as opposed to a standard car or SUV (see also Rule 35).

**RULE NO. 75      BLOCK TICKET SALES CHARGE:**

There is a \$19.50 block ticket sales service charge for all block sales of 25 or more tickets. The block ticket sales service charge for arrangements made for group travel that includes making luncheon reservations, bus tours, and/or other similar amenities shall be \$35.00.

**RULE NO. 80      ONLINE SALES CHARGE:**

For all online internet and telephone call center passenger transactions, there is a \$2.00 convenience fee per transaction, to cover postage/handling charges.

**RULE NO. 85      LOST TICKET CHARGE:**

There is a \$13.00 charge for all lost tickets which are replaced (each way).

**RULE NO. 90      GROUP DISCOUNTS:**

Carrier may from time to time apply a 15% promotional group discount rate to groups of 25 or more.

**RULE NO. 95      ADVANCE TICKET DISCOUNT:**

Carrier may sell advance tickets on a pay for 9 tickets in advance, get 10 tickets basis.

**RULE NO. 100     COMMUTER RATE ELIGIBILITY:**

Only the holders of a Rhode Island driver's license with a Block Island address on the license are eligible for commuter rates, and to be eligible for the commuter standard sized car, SUV, van and pick up rates, (Oversized Vehicles as defined in Rule 35, are not eligible for the commuter vehicle rate), the vehicle (1) must be driven by a driver with a Block Island license, and (2) must have a Block Island address on its registration. Also, Block Island resident school students who are over the age of eleven, but under the age of sixteen who attend the Block Island School may obtain the adult resident commuter rate by presenting a valid Block Island School Photo Identification Card which will be issued by the Town of New Shoreham.

\* Note:

Except as set forth below, trucks carrying hazardous materials or dangerous goods, as defined by 49 CFR, Subchapter C Hazardous Materials Regulations, the U.S. Coast Guard, and the International Maritime Organization, can not be transported aboard passenger vessels. Therefore, except as set forth below, when carrying these materials, the vessel must operate strictly as a cargo vessel, and the per foot rate is as set forth above for hazardous trucks. For this purpose, the Carrier will make a vessel available as a cargo vessel on a reservation only, as available basis, at the rate set forth above per same day round trip run from Point Judith to Block Island and return (maximum 4 hours). When available, the cargo vessel must be scheduled to leave Point Judith and complete the run at the discretion of the Carrier.

Trucks which carry sludge for the New Shoreham Sewer Commission will be required to travel on the hazardous truck cargo vessel, and will not be allowed to travel on a vessel with passengers, but will be allowed to travel at the regular truck rate of \$5.75 per linear foot, because the sludge is not a hazardous material or dangerous good as defined by 49 CFR, Subchapter C, but odor from the truck is a problem for ferry passengers. In addition, trucks which carry garbage for the Town of New Shoreham will also be allowed, on an as-needed basis, to travel on the hazardous truck cargo vessel, but at the standard truck rate of \$5.75 per linear foot, or they may travel on the usual passenger ferry.

Trucks which have a gross weight of 50,000 pounds or more and are not tractor trailer trucks and are not carrying property for the Town of New Shoreham will be required to pay, in addition to the per linear foot truck rate, a weight premium of \$50 per one way trip due to the weight limitations imposed upon the ferry vessels.

PART TWO.  
ADDITIONAL REQUIREMENTS FOR FILINGS OF  
GENERAL RATE SCHEDULE CHANGES

2.1 PURPOSE. **No filing required.**

2.2 APPLICABILITY. **No filing required.**

2.3 FILING

(a) Notice to the Commission of proposed general rate schedule changes by a public utility pursuant to R.I.G.L. §39-3-11, shall be given by a filing with the Commission pursuant to Part One of these rules, accompanied by the documents, data and information in the manner and form required by Part Two of these Rules, unless a motion for an exemption from any requirements accompanies the filing. **This Filing**

(b) In the event that any information, document or data required by this Part is unavailable and/or its ascertainment or submission would be unduly burdensome or it is not relevant in light of the schedule change which is the subject of the application, the applicant may file with the application a motion for an exemption from the requirement. The motion shall set forth in detail the reasons why the information, document or data cannot or should not be submitted. The granting of such a motion shall not exempt the applicant from supplying the information, document or data in response to a subsequent data request. **Not applicable**

(c) Commission-ordered suspension periods of up to six months commence on the date a general rate filing would otherwise take effect. After docketing, any change or changes in the filing which would, singly or in the aggregate, increase the overall cost of service by more than one percent (1%), or an individual rate by more than five percent (5%), may be treated as a new filing, triggering a new six -month period for Commission review and decision. **Not applicable.**

2.4 NOTICE OF FILING PROPOSED GENERAL RATE CHANGES

Within ten (10) days after filing for general rate schedule changes, the applicant shall cause a notice of the filing, in a form to be approved by the Commission, to be published in the newspaper of widest circulation within the applicant's service territory. In addition, the company shall include a notice of its proposed general rate schedule changes in the next general customer billing, if within sixty (60) days following the filing of the application, or by a separate mailing. **Will be done.**

2.5 ITEMS TO BE INCLUDED IN THE FILING

The following materials shall be included in or shall accompany the filing:

(a) Rate Schedules; Terms and Conditions. The current and proposed rate schedules and the terms and conditions under which the utility provides services and/or makes non-tariffed charges. **Enclosed with filing.**

(b) Complete Direct Case. An original and nine (9) copies of the applicant's complete direct case in support of the rates applied for, which shall be in the form of prepared written testimony and exhibits. **JL, DGB and WEE testimony.**

- (c) Additional Documents. Two (2) copies of each of the following:
- (1) Annual Report to the Commission for the last two (2) years, if reports have not been previously filed with the Commission. **Previously Filed.**
  - (2) Federal Energy Regulatory Commission or Federal Communications Commission annual reports for the last two (2) years, where applicable, if not previously filed with the Commission, and any correspondence or written comments in connection with these reports. **Not applicable.**
  - (3) The latest Federal Energy Regulatory Commission or Federal Communications Commission audit report (including management letter) and any written response to the report or management comments. Un-resolved or outstanding matters should be highlighted. **Not applicable.**
  - (4) Securities and Exchange Commission Annual 10-K reports filed for the last two (2) years and any Quarterly 10-Q reports filed for the period(s) subsequent to the latest 10-K report. **Not applicable.**
  - (5) Any prospectus issued during the last two (2) years. **Not applicable.**
  - (6) Annual reports to stockholders for the last three (3) years. **Not applicable.**
  - (7) Statement reconciling any significant differences between items shown in the filing and items in any of the above reports. **See Schedule DGB-7.** If such documents have been provided to the Commission in a prior proceeding within twelve (12) months of the filing, additional copies need not be filed unless requested by the Commission or any party. **Not applicable.**
- (d) Service of Documents. A complete set of the documents filed pursuant to these rules shall be served upon the Attorney General at the time of filing with the Commission. **Done**
- (e) Index. The applicant shall present an index outlining and identifying the responses to the information filed pursuant to Part Two, Sections 2.4 through 2.10, as they apply to the applicant. The applicant shall indicate whether any specific item is not applicable (see Appendix C). **This document is the index.**

## 2.6 TEST YEAR AND RATE YEAR FILING

- (a) Test Year. The filing shall present cost of service and rate base schedules for a test year period. The test year constitutes a historic year of actual data for a period ending within nine (9) months of the filing date. The test year may be for such other period as the Commission may allow. **See Schedules DGB-1, DGB -2 and DGB-3.**
- (b) Rate Year. The rate year is the twelve-month period for which new rates are designed to recover the proposed cost of service. The rate year period shall be the filed test year or such other yearly period which commences no later than six (6) eight (8) months after the proposed effective date of the new tariffs. **See Schedules WEE-1, 2 and 3.**
- (c) Adjustments to the Test Year. Where a rate year is filed for a period different from the test year, supporting schedules or workpapers shall be filed to disclose the manner in which the rate year amounts were calculated. The adjustments to the test year shall be fully explained in written testimony, and the source of the data in support of the adjustments shall be presented, or disclosed, as appropriate. **See Schedules WEE-4 through WEE-11.**

(1) Normalization Adjustments. These adjustments shall be made to the test year to present a reasonable/normal amount for one full year of operations. The test year must be normalized to reflect expected results for a typical future year. All items of unusual magnitude which occurred during the test year, but which are not expected to recur to a significant degree beyond the test year, should be adjusted to reflect what is reasonably to be expected in the future. Correspondingly, adjustments should be made to reflect items that are fixed, determinable, and likely to occur in the future, but did not occur to a significant degree during the test year. **See Schedules DGB-1, 2, 5, 5a and 5b.**

(2) Proforma Adjustments. These adjustments serve to walk-up the normalized test year amounts to the balances presented for the rate year. **See Schedules WEE-2 and WEE-3 and supporting Schedules WEE4-11.**

(3) Accounting Change Adjustments. Any change in the manner of recording accounting data on the company's books shall be explained and the financial impact shown. **None.**

(4) Inflationary adjustments. These adjustments are based upon projected cost increases, e.g. Consumer Price Index changes. **None.**

## 2.7 ATTESTATION OF FINANCIAL DATA

The financial data shall be accompanied by a statement attesting to the accuracy of the financial data presented in the rate base, cost of service and other financial statements; that such data purports to reflect the books of the company, and the results of operations; and that all differences between the books and the test year data, and any changes in the manner of recording an item on the company's books during the test year, have been expressly noted. This attestation shall be signed by the chief financial officer or a person duly authorized by such financial officer. **See attestation of Susan E. Linda, President and Treasurer attached to the end of the testimony of Joshua Linda, Vice President.**

## 2.8 SUPPORTING INFORMATION AND WORKPAPERS TO BE FILED BY INVESTOR-OWNED UTILITIES

In addition to the materials required by Rule 2.5, any utility that is a private or publicly-held investor-owned entity (as opposed to a municipal or quasi-public entity that is a not-for-profit organization), is required to file the following:

(a) Rate base schedules for the test year period and for the proposed rate year.

The test year shall reflect an average rate base based upon a monthly averaging of balances, or beginning and end of year averages where such amounts are not significant in relation to the total rate base (less than 2% of rate base). **See Schedule WEE-12**

(b) Cost of service schedules for the test year and for the proposed rate year. **See Schedules WEE1-WEE11 for the rate year and Schedules DGB 1-5b for the test year.**

(c) The capitalization of the utility for the following periods:

(1) the test year, either average balances or end of test year balances; **See Schedule WEE- 13.**

- (2) the actual capitalization of the utility for the latest date available prior to filing; **See Schedule WEE-13.**
- (3) the capital structure utilized by the company for the determination of new rates. If this differs from the actual capital structure data, the proforma changes are to be fully explained and supported. **See WEE Testimony and WEE-13.**
- (d) Workpapers supporting any claim for an allowance for working capital. **Working Capital not Requested.**
- (e) Workpapers supporting allocations of rate base and cost of service amounts among jurisdictions (intra/inter-state) or entities operated from or in association with the utility. **Not applicable.**
- (f) Workpapers detailing additions to or retirements from plant and depreciation accounts where proforma amounts differ from the test year. Detail data in support of depreciation charges is required, including asset lives, salvage values/costs, etc. for major account categories. **See WEE Testimony and Schedules WEE-6 and WEE-12.**
- (g) An analysis of material and supply inventory balances included in rate base for test year and rate year periods. Gas companies should provide monthly inventory figures for the test year for gas inventories. **Not applicable.**
- (h) Workpapers detailing the test year and rate year revenues by source, tariff, rate class, etc. The sales volumes/quantities and customer counts by rate class shall be presented. The basis/calculation for rate year sales volumes and customer counts is to be provided. The total rate year revenues must be supported by a billing analysis utilizing the above data and the proposed rates. **See Schedule DGB-1, and Schedule WEE-14.**
- (i) For each rate class, the effect of the proposed rate changes shall be presented in a comparative billing format (current and proposed) for typical (or varying) usage levels. A copy or sample of the utility's actual billing statement shall be presented. **See WEE Testimony pg 33 – Ratepayer impact.**
- (j) An analysis of revenues and associated expenses for the test year pertaining to adjustment clauses (fuel, purchased power, gas or other). All appropriate data should be disclosed, including refund information, total adjustment clause revenues, gross receipts tax payments, etc. The difference between adjustment clause revenues and recoverable expense for the test year must be shown. In general, revenues and expenses relating to adjustment clauses will not be reflected in the cost of service, except for that portion which is to be included in the firm/base rates of the utility. **See Schedules DGB- 5, 5a, and 5b.**
- (k) A calculation of the test year and rate year federal income tax amounts. For the test year, present a reconciliation of book and taxable income as required and filed in the Annual Report to the Commission. **See Schedule WEE-13.**
- (l) A calculation of the test year and rate year deferred federal income tax amounts. Indicate which book/timing differences are specifically provided for in calculating the rate year deferred federal income taxes. Show and explain the treatment for any changes in deferred federal income tax balances as a result of any change in the federal tax laws to include (but not limited to) excess deferred taxes created by a reduction in the federal income tax rates. **None.**

- (m) A description of the treatment of investment tax credits and any elections made under the Internal Revenue Code. **Not Applicable.**
- (n) If the company files a consolidated tax return, show the estimated rate year tax savings resulting from the filing of a consolidated return. Explain fully the method of computing the tax savings. **Not Applicable.**
- (o) A calculation of the rate year tax expense for the Rhode Island Gross Receipts tax. **See WEE Testimony and Schedule WEE-1.**
- (p) A calculation and explanation of the method used to calculate the rate year municipal tax expense (by city/town, if applicable). Also, show the municipal tax expense (by city/town) for the prior three (3) years. **See WEE Testimony page 12.**
- (q) Show the number of employees at beginning and end of test year and the dollar amount of overtime paid during the test year and the previous two (2) years. Indicate the number of employees and the amount of overtime provided for in the cost of service for the rate year. **See Attachment A of JL testimony.**
- (r) Present a summary of transactions with affiliated companies, officers, and stockholders which occurred during the test year. To be included are the following: billings to/from; loans to/from; sales/purchases of goods, services or property; expense allocations among affiliates; receivables to/from affiliates and others. Provide beginning and end of test year amounts owed and the latest balance(s) prior to the filing. **See Schedule WEE-16.**
- (s) The following statements or financial data are to be provided when the test year does not coincide with the latest fiscal year shown in the annual report provided in the filing:
- (1) a balance sheet as of the end of the test year; **See Schedule DGB -6.**
  - (2) an income statement for the test year; **See Schedules DGB -1 and 2.**
  - (3) a statement of changes in retained earnings for the test year. **See Schedules DGB 3-7.**
- (t) If utility assets are pledged as security on loans, notes, or any other form of debt instrument, full disclosure shall be made as to: description or identification of assets pledged; description/identification of the debt instruments; outstanding debt balance(s); disposition of debt proceeds; any default or impending default under the terms of any loan provisions; and any other pertinent information. **See Schedule WEE-13**
- (u) A summary of expenses incurred and projected to be incurred related to the instant rate case filing, and a schedule showing any unamortized amounts from prior rate filings. This schedule shall reconcile the total amount of expense allowed in the last order, the recovery (or amortization) of expense through the test year, and the projected balance of any unrecovered (unamortized) amount at the beginning of the rate year. **See WEE Testimony pgs 26 and 27.**
- (v) The utility shall present information for the preceding five (5) years disclosing the following data, as appropriate for the utility:
- (1) unaccounted for water; **Not Applicable.**
  - (2) loss on transmission of electricity or gas; **Not Applicable**
  - (3) the utility's own use of water, electricity, or gas. **Not Applicable**
- (w) A summary of the status of compliance and reporting required by prior Commission orders. **See WEE Testimony pages 3+4.**

## **NOTICE OF FILING**

The Interstate Navigation Company ("Interstate") hereby gives notice that on July 31, 2006, Interstate filed with the Rhode Island Public Utilities Commission (the "Commission") new rates and schedules designed to increase revenues by \$2,438,522 (Docket No. \_\_\_\_\_) The impact of the proposal as currently filed is an across-the-board increase of 30.26% on all rate classes.

The new rates are proposed to take effect thirty (30) days from the filing date. However, the Commission can suspend the effective date of the proposed rates up to six months and no rate change will take effect until the Commission has conducted a full investigation on the proposal. The Commission will publish a notice of the hearing dates when they are scheduled. At that time, ratepayers may comment on the proposal.

A copy of our filing is available at the offices of Interstate Navigation Company's attorney, Michael R. McElroy, 21 Dryden Lane, P.O. Box 6721, Providence, RI 02940-6721, and at the Public Utilities Commission, 89 Jefferson Boulevard, Warwick, RI 02888, and may be examined by the public during business hours. This notice is given pursuant to the Commission's Rules of Practice and Procedure.

Interstate Navigation Company
