Luly E. Massaro, Commission Clerk Rhode Island Public Utilities Commission 89 Jefferson Boulevard Warwick, RI 02888

RE: Docket 3779 – Electric Demand-Side Management Programs for 2007 Responses to Commission Data Requests issued at Technical Session

Dear Ms. Massaro:

Enclosed please find ten (10) copies of National Grid's responses to the Commission's Data Requests issued at the technical session on December 8, 2006, in the above-captioned proceeding.

Thank you for your attention to this filing. If you have any questions, please feel free to contact me at (401) 784-7667.

Very truly yours,

Laura S. Olton

National Grid RIPUC Docket No. 3779 2007 Electric Demand-Side Management Programs Responses to Commission's Data Requests Issued at Technical Session December 8, 2006

Commission Data Request #1

Request:

Please provide the actual 2006 numbers for the chart on page 7 of the presentation materials (Expenses, MWh Savings, KW Savings, Participants, and Value).

Response:

The Company has achieved the following results for calendar year 2006 through the month of October:

Expenses	\$14,317,405
MWh Savings	60,422
kW Savings	9,591
Participants	58,998
Value	\$57,908,000

Note: The expense and value in the above are actual dollars, while the comparable data on page 7 of the presentation are in thousands of dollars. Results through November 2006 are not currently available.

National Grid RIPUC Docket No. 3779 2007 Electric Demand-Side Management Programs Responses to Commission's Data Requests Issued at Technical Session December 8, 2006

Commission Data Request #2

Request:

What has been the participation of hospitals and other health care facilities in Rhode Island in the Company's energy efficiency programs?

Response:

The Company has been actively engaged over the past decade offering efficiency services to most of the major hospitals in Rhode Island. The attached table provides the level of participation by various hospitals, health clinics and nursing homes in the state. Health care facilities, especially hospitals, are large users of energy and stand to benefit from incorporating energy efficiency measures that target lighting systems, comfort cooling efficiency improvements along with controls, advanced fume hood technologies, and better heat recovery practices.

Since 1998, 31 health care facilities in 33 locations have been served through National Grid's energy efficiency programs. Over 285 rebate applications have been generated and \$3.3 million in rebates have been paid for projects at these facilities.

The table on the following page details the participation.

Response prepared under the supervision of Michael McAteer
