PATUCKET WATER SUPPLY BOARD

Docket No. 3945

Pawtucket Water Supply Board's Data Requests to  
the Division of Public Utilities and Carriers  
Revised Response to Data Request 1

1. For each case in Rhode Island since (and including) 1993 listed in Ms. Crane's appendix A involving a water utility, please list the rate year consumption that Ms. Crane initially recommended in her direct testimony (as may be distinct from the amount approved by the Commission or subsequent amounts that were settled upon by the parties) and the actual water sales for the rate year as set forth in each utility's annual reports submitted to the Commission. If the rate year overlaps a reporting year - please provide the reported water sales for the two years that encompass the rate year.

Response: See attached worksheet. The attached worksheet has been revised to reflect retail sales only in the reported consumption columns for KCWA Docket's 2555 and 3311. This revision was made because the recommended rate year consumption amounts related to retail sales only.

Respondent: John Bell
