PUBLIC UTILITIES COMMISSION

IN RE: APPLICATION FOR STANDARD CERTIFICATION DOCKET NO. 4045
AS ELIGIBLE RENEWABLE ENERGY RESOURCE
FILED BY GREEN MOUNTAIN POWER
CORPORATION – VERGENNES HYDROELECTRIC
PROJECT

ORDER

WHEREAS, Effective January 1, 2006, the Rhode Island Public Utilities Commission ("Commission") adopted Rules and Regulations Governing the Implementation of a Renewable Energy Standard ("RES Regulations") including requirements for applicants seeking certification as an Eligible Renewable Energy Resource under the RES Regulations¹ pursuant to the Renewable Energy Act, Section 39-26-1 et. seq. of the General Laws of Rhode Island; and

WHEREAS, On March 10, 2009, Green Mountain Power Corporation, ("Applicant"), Authorized Representative: Maria Fischer, 163 Acron Lane, Colchester, VT 05446 fischer@greenmountainpower.biz, filed with the Commission an application seeking certification for its Vergennes Hydroelectric Project, a 2.6 MW hydroelectric project, as an eligible New and Existing Renewable Energy Resource under the State of Rhode Island RES Regulations ("Application"); and

WHEREAS, Pursuant to Section 6.0 and other relevant Sections of the RES Regulations, a thirty (30) day period for public comment was provided during which time, no such comments were received; and

¹ State of Rhode Island and Providence Plantations Public Utilities Commission Rules and Regulations Governing the Implementation of a Renewable Energy Standard – Date of Public Notice: September 23, 2005, Date of Public Hearing: October 12, 2005, Effective Date: January 1, 2006.

WHEREAS, On May 12, 2009, a request for supplemental information was issued by the Commission's consultant regarding river flow data, and the review of the Application has been on hold because the Commission has been awaiting the submission of river flow data; and

WHEREAS, It has been over four (4) years since the submission of the Application; and

WHEREAS, Commission Staff contacted Ms. Fischer on two occasions in May 2013 to determine whether Green Mountain Power Corporation intended to proceed with the Application and was advised that the message had been passed on to another person. Commission Staff had no further contact with a representative of Green Mountain Power Corporation; and

WHEREAS, On June 13, 2013, at a duly noticed Open Meeting, the Commission considered the Application, determined that it has been pending for more than two years without approval based on an outstanding request from the Commission/its consultant for more information. The Commission found that the Applicant has been contacted more than thirty (30) days prior to the Open Meeting and has not responded to the Commission. Therefore, the Commission rejected the pending Application for lack of compliance with the RES application process, having been unresponsive to a request for more information for over four years. However, the Commission found that such a determination does not address the merits of the application nor does it preclude the Applicant or a subsequent project owner from submitting a new Renewable Energy Resource application for the project.

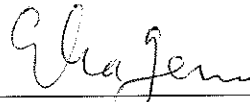

Accordingly, it is hereby

(21074) ORDERED:

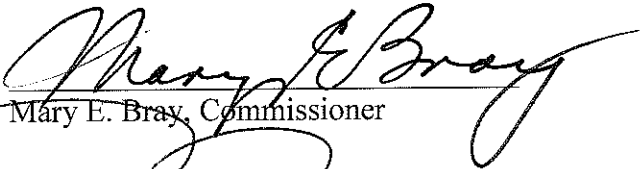

- 1) That the Application for Certification as an eligible New and Existing Renewable Energy Resource under the State of Rhode Island RES Regulations submitted by Green Mountain Power Corporation for the Vergennes Hydroelectric Project, City of Vergennes, VT (GIS # MSS 2435) is hereby denied without prejudice on the basis that the Applicant did not complete the application process in a timely manner.
- 2) This Order does not make a determination of whether the Project would meet the eligibility requirements under the State of Rhode Island Renewable Energy Standard and therefore, the Applicant or a new project owner may submit a new application for Commission review in the future.

DATED AND EFFECTIVE AT WARWICK, RHODE ISLAND ON JUNE 13, 2013 PURSUANT TO AN OPEN MEETING DECISION. WRITTEN ORDER ISSUED JUNE 20, 2013.

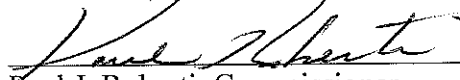

PUBLIC UTILITIES COMMISSION
