Subject: Fwd: Thank You from Washington State

Luly,
For Commission record.

>>> "Dave Goff" <dave@dustcontroltech.com> 4/8/2010 7:29 PM >>>
The officers of the PUC deserve an Big "Pat On the Back" and a "Thank You" from the ratepayers, business owners and future ratepayers of the State of Rhode Island. After reading the article "Rhode Island PUC Dumps Offshore Wind PPA as too Pricey" in the Energy Dailey I realized that there are still a few good people out there who care about doing the Right Thing for the People and not just the popular thing.

You have just set the example that all other Commissions will have to strive for. Congratulations on a job well done!

Best Regards,

Dave Goff
Washington State Ratepayer

PS: If any of you decide to move out West we would find you a job, no problem.

Luly Massaro - Fwd: Deepwater Utility Plan Vote

Hello Ms. Kent,

I just wanted to take a moment to thank you and the PUC for making the right decision yesterday. I spent the day taking water out of the basement. I took a break to check the weather and saw the headline, and I smiled and whistled the rest of the day.

Thank you!

Benjamin Billings

>>> <RJO5038@aol.com> 3/31/2010 10:29 PM >>>

I would like to thank the three commissioners on making the right choice for Rhode Islanders. Understanding the true problems within this project (deepwater) is very difficult, looking into it for the truth was even harder. I am glad the true facts came out in the light.

The story I heard on the radio today was upsetting it was a one way story with half truths and half the evidence. I felt the people where being mislead by the two callers and the host. And they did not take any callers on the subject.

will be keeping taps on the state house for new bills regarding this subject.

thank you for the kepting to the facts

>>> Dennis Beutler <dcbeutler@yahoo.com> 3/31/2010 10:23 AM >>>

Hello,

I normally don't comment or send emails regarding the politics in RI as it would fall on deaf ears. But I must make an exception for the case of the proposed wind farm with its ridiculous rates, and the pie in the sky of jobs creation at Quonset.

I want thank you and the Commission for rejecting the proposed contract. It made no sense. Hopefully now the Governor will wake up, but I doubt it.

Thanks Again,

Dennis

>>> "Hacketts" <Hacketts2@verizon.net> 3/31/2010 7:42 AM >>>
Mary and other board members,

I want to thank you for your decision to reject the contract for deepwater wind. It is very refreshing to see that you acted in the public's best interest, even when the legislature and other "public officials" advocated entering a bad deal.

Concerned resident of RI
Mike Hackett

Luly Massaro - Fwd: Deepwater decision

What a courageous decision by the PUC. Congratulations on doing the right thing, under tremendous pressure from many groups with vested interests in the project, including rich do-gooders. It would have been foolhardy for the ordinary ratepayers, as well as the high-usage businesses, to subsidize this boondoggle. Let the investors in this project reduce their exorbitant profit expectations so that the cost to electricity users isn't ridiculous like this proposal. No question this was a pro-consumer and pro-business decision that is one of the best things our state government has ever done.
