Rachel,

People's Power and Light continues to support the settlement agreement presented in docket 4116. The changes and responses to data requests do not significantly change the agreement.

Confirming Settlement Support for PUC -- By 5 PM

Page 2 of 3

Everyone,

The PUC just requested that we confirm everyone's support of the settlement by close of business today. Karina, Jeremy, Jon & John -- as signatories, I need to confirm your support as soon as possible. If anyone is on vacation, we would like an organization representative to review the changes. We would prefer an email confirming your support, so that we have documentation.

If you have any questions or would like to review the changes together, please call me at 781-907-1555.

I apologize for the incredibly late notice. Below, I have described all changes and attached the record request responses as well as copies of updated documents.

Thanks and have a wonderful holiday,
Rachel

Attached you will find updated documents that were submitted to the PUC on Friday as part of the Record Requests, including an updated Attachment 5 and Text Table 1.

The changes to Attachment 5 include:

- o Lowering the RGGI proceeds in Table E-1 based on findings in the response to RR-2; the change resulted in \$292,000 less in available funding.
- o Corrected the Energy Star Homes Budget on E-2 to match the correct budget amount in E-4 by deducting \$286,000 from External PP&A. E-4 remains the same as previous versions.
- o Corrected the calculation of the Shareholder Incentive in the budget in Table E-2 to exclude SRPP costs; change results in lowering the shareholder incentive by \$12,562.
- o Overall, the proposed DSM charge remains the same, program budgets remain the same, and the shareholder incentive is less.

<<4116-Responses-RRs (PUC 12-18-09) (2).pdf>>

At the hearing, we passed out a revised Attachment 6 and the Errata list. I have attached these to the email as well. The major changes included:

- Updated Avoided Costs to 2009 in Gas Benefit-Cost model, resulting in higher b/c's for all gas programs.
- Corrected formatting errors
- Overall, the proposed DSM charge remains the same (\$0.15 per dekatherm), the budget remains the same as filed versions, the shareholder incentive remains the same, and the benefits and b/c ratio for all programs increased.

Hi All,

ENE continues to support the settlement. We don't believe that the Company's record request responses or the changes identified in Rachel's e-mail materially alter substance of the settlement.

Have a great holiday,

Jeremy

Rachel and parties:

TEC-RI has reviewed the record requests and summaries of changes, and concludes that none of the changes are material to the question of TEC-RI's support of the settlement. Therefore, TEC-RI confirms its support for the settlement for the 2010 DSM programs in docket 4116.
