Luly,  
For Commission record.  
Thanks, Mary

Dear Commissioners;

Please do not accede to the pressure from the Governor and Assembly principals. The increased cost of electricity associated with this "pie in the sky" project is harmful both to the individuals and businesses. I do not comprehend the rationale. For decades, the high cost of electricity has been identified as a hindrance to economic development and viability. So the remedy is to increase the cost of electricity? Have these pooh bahs lost their minds.

I urge you to stand firm in opposing this ruinous proposal.

Sincerely,

Joseph A. Matais
