Division 2-1

Request:

Please provide the data, analyses, and rationales upon which the Company relies to support its assessment of the reasonableness and appropriateness of applying its Natural Gas RDM to:

- a. Low Income Residential Heating customers
- b. Low Income Residential Non-Heating customers

Response:

- a-b. The Company believes that because Low-Income Residential Heating customers and Low Income Residential Non-Heating customers benefit for energy efficiency programs and pay the energy efficiency surcharge, it is reasonable and appropriate to include these rate classes in the Company's gas RDM plan
