

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS  
**PUBLIC UTILITIES COMMISSION**

IN RE: NARRAGANSETT ELECTRIC D/B/A NATIONAL GRID  
ENERGY EFFICIENCY PROGRAM PLAN FOR 2011

DOCKET NO. 4209

**NOTICE OF TECHNICAL SESSION**

Pursuant to the provisions of Sections 39-1-1 and 39-3-11 of the General Laws, as amended, the Public Utilities Commission (“Commission”) will conduct a public hearing on **Monday, December 13, 2010 @ 9:30 A.M.** in Hearing Room A of the Public Utilities Commission, located at 89 Jefferson Boulevard, Warwick, Rhode Island. The technical session may continue thereafter from day to day and time to time as required.

In this docket, the Commission will examine the propriety of a Settlement Agreement (“Agreement”) jointly submitted by National Grid, the Division of Public Utilities and Carriers, The Energy Council of Rhode Island, Environment Northeast and RI Energy Efficiency and Resources Management Council seeking approval of National Grid’s Energy Efficiency Program Plan (“EEPP”) for 2011. The Agreement provides National Grid with a budget to implement gas and electric energy efficiency programs targeted at different classes of residential, commercial and industrial customers. The EEPP is proposed to be funded through the legislatively mandated energy efficiency charges, the Demand Side Management charge and Energy Efficiency Plan charge. The proposed budget for the electric programs is approximately \$54 million and will be collected through the electric energy efficiency charge of \$0.00526 per kWh for application in the billing months of January through December 2011. This represents an increase of \$0.00206 from the currently effective charge of \$0.00320 per kWh. The impact on a typical residential customer using 500 kWh per month would be an increase of \$1.03 per month from \$1.60 to \$2.63.

The proposed budget for the gas programs is approximately \$11.5 million and will be collected through the gas energy efficiency charge of \$0.411 per dekatherm for application in the billing months of January through December 2011. This represents an increase of \$0.261 from the current charge of \$0.150 per dekatherm. The impact on a typical residential heating customer using 922 therms per year is an increase of \$24.06 from \$13.83 to \$37.89. The Commission may approve different rates that may be higher or lower than those proposed by National Grid.

The deadline to file a Motion to Intervene as a party in this docket is December 1, 2010. Intervenor’s written comments are due December 7, 2010. The Settlement, proposed tariffs and related documents may be examined at the Commission’s office and at the office of National Grid, 280 Melrose Street, Providence, Rhode Island. The filing can also be accessed under the Commission’s Docket Menu at [www.ripuc.org](http://www.ripuc.org), Docket No. 4209. Reference is made to Chapters 39-1, 39-3 and 42-35 of the Rhode Island General Laws.

The Public Utilities Commission is accessible to the handicapped. Individuals requesting interpreter services for the hearing impaired must notify the Commission Clerk’s office at 941-4500, seventy-two hours in advance of hearing date.

Luly E. Massaro, Commission Clerk
