RE: Docket No. 4237 Regarding Contact Voltage Legislation and Mandates

Dear Ms. Massaro:

My name is Roz Rustigian and I am the executive director of CVIC (Contact Voltage Information Center). CVIC is a public service organization dedicated to raising public awareness of the dangers of contact voltage. It also is an advocate for the implementation of legislation and regulations relative to utility company detection programs to remedy this potential public danger. We are supported by the Jodie Lane Foundation, Deanna Lyric Foundation and numerous other organizations including a host of animal rights groups and veterinary medical associations.

This letter represents my formal request to the PUC to allow CVIC to intervene in the hearings related to the newly mandated Contact Voltage program as outline in legislation enacted in June of this year.

We have had discussions with the administrative head of the Division of Utilities and this department has no objection to our desire to intervene in this matter of public safety.

I thank you for your time and consideration.

Regards,

Roz Rustigian
