**COMMISSION'S THIRD SET OF DATA REQUESTS
DIRECTED TO ORBIT ENERGY RI, LLC.**

July 13, 2011

(Please respond no later than July 26, 2011)

1. Is this proposed facility subject to a reliability review by ISO-New England and/or NEPOOL?

Orbit Energy RI, LLC is working directly with counsel, ISO-NE, and National Grid on resolution of this issue. The Company will proceed under the terms of the National Grid Interconnection Application. Should it ultimately be determined that ISO-NE and/or NEPOOL will require a reliability review, National Grid will be commissioned by ISO-NE to support that effort, and an application will also be filed with ISONE if necessary.

2. If the answer to Question 1 is yes, please provide the date that the facility was submitted, or will be submitted, for a reliability review and study by ISO-NE and/or NEPOOL. Please provide any related documentation on the application for review or the results of such review if applicable.
3. If the answer to Question 1 is yes, what is the anticipated timeline for a reliability determination on the proposed facility? Please provide a Gantt chart if practical.
