RE: Docket Nos. 4277 and 4288
Distributed Generation (“DG”) Standard Contracts Program
Enrollment Application and Enrollment Process Rules and Standard Contracts

Dear Ms. Massaro:

Pursuant to the Distributed Generation (“DG”) Standard Contracts Act, R.I.G.L. §39-26.2-8(a), National Grid is submitting the enclosed report of the aggregate amount of project nameplate capacity that was the subject of the standard contracts entered into during the 2014 DG Standard Contract second enrollment, which occurred during July and August 2014. The report also includes the prices for each standard contract that was executed. National Grid awarded three Standard Contracts in the second enrollment, totaling 2.641MW of project nameplate capacity. As noted in the enclosed report, the Company received applications for over 2.65 MW of projects, which did not meet the target of 9.440 MW set for this second open enrollment. The shortfall for this enrollment period was associated with the fact that the specified technology/technology classes were either under represented (i.e., Small and Large Solar) or not represented under the current class target allocations (e.g., no Wind, Hydropower or Medium Solar technology class proposals).

Thank you for your attention to this matter. If you have any questions regarding this filing, please contact me at (781) 907-2121.

Very truly yours,

Raquel J. Webster

Leo Wold, Esq.

Second 2014 RI DG Enrollment Report

Pursuant to the provisions of the Distributed Generation (“DG”) Standard Contracts Act, R.I.G.L. §39-26.2-8(a), National Grid is submitting the attached report of the aggregate amount of project nameplate capacity that was the subject of the standard contracts entered into during the DG Standard Contract enrollment that occurred during July/August 2014 and the prices under each of the standard contracts that was executed. National Grid awarded three Standard Contracts in the Second 2014 Enrollment, totaling 2.641 MW of project nameplate capacity. The Company received applications for over 2.65 MW of projects, which did not meet the target of 9.440 MW set for this open enrollment. The shortfall for this enrollment period was associated with specified technology/technology classes being under represented (i.e., Small and Large Solar) or not being represented under the current class target allocations (e.g., no Wind, Hydropower or Medium Solar technology class proposals).

Counterparty	Project & Location	Nameplate Capacity (kW)	Class	Price (cents/kWh)
North Kingstown Organic Energy, LLC 1 New Hampshire Avenue, Suite 207 Portsmouth, NH 03801	<i>North Kingstown Organic Energy</i> All American Way North Kingstown, RI 02852	500	Anaerobic Digestion (50 - 500 kW)	19.550
