## RE: Docket Nos. 4277 and 4288 Distributed Generation (DG) Standard Contracts Program Enrollment Application and Enrollment Process Rules and Standard Contracts

Dear Ms. Massaro:

Pursuant to the Distributed Generation (DG) Standard Contracts Act, R.I. Gen. Laws § 39-26.2-8(a), National Grid is submitting the enclosed report of the aggregate amount of project nameplate capacity that was the subject of the standard contracts entered into during the third DG Standard Contract enrollment, which occurred during October and November 2014. The report also includes the prices for each of the standard contracts that was executed. National Grid awarded twelve Standard Contracts in the Third 2014 Open Enrollment, totaling 10.973 MW of project nameplate capacity. The Company received applications for almost 11 MW of eligible projects<sup>1</sup>. The Wind and Medium Solar classes were able to exceed their respective target nameplate allocations, and other technology classes were either under represented (i.e., Small and Large Solar) or not represented at all (e.g., Small Scale Hydropower or Anaerobic Digestion).

Thank you for your attention to this matter. If you have any questions regarding this filing, please contact me at 781-907-2121.

Very truly yours,

Raquel J. Webster

Enclosure

cc: Docket 4277 & 4288 Service Lists Steve Scialabba Leo Wold, Esq.

<sup>&</sup>lt;sup>1</sup> The Company received approximately 3.5 MW of applications for projects that were not eligible.

## Third 2014 RI DG Enrollment Report

Pursuant to the provisions of the Distributed Generation (DG) Standard Contracts Act, R.I. Gen. Laws § 39-26.2-8(a), National Grid is submitting the attached report of the aggregate amount of project nameplate capacity that was the subject of the standard contracts entered into during the DG Standard Contract enrollment that occurred during October/November 2014 and the prices under each of the standard contracts that were executed. National Grid awarded twelve Standard Contracts in the Third 2014 Open Enrollment, totaling 10.973 MW of project nameplate capacity. The Company received applications for almost 11 MW of eligible projects<sup>1</sup>. The Wind and Medium Solar classes were able to exceed their respective target nameplate allocations, and other technology classes were either under represented (i.e., Small and Large Solar) or not represented at all (e.g., Small Scale Hydropower or Anaerobic Digestion).
