First 2013 RI DG Open Enrollment Report

Pursuant to the provisions of the Distributed Generation (“DG”) Standard Contracts Act, R.I.G.L. §39-26.2-8(a), National Grid is submitting the attached report of the aggregate amount of project nameplate capacity that was the subject of the standard contracts entered into during the DG Standard Contract enrollment that occurred during March 2013 and the prices under each of the standard contracts that was executed. National Grid awarded six Standard Contracts in the First 2013 Open Enrollment, totaling 2.184 MW of project nameplate capacity. Although the Company received applications for over 29 MW of projects, the target of 4.6 MW was not satisfied. This may have been due in large part to the allocations and caps on capacity under the currently approved targets.
