RE: DG Board's Report & Recommendation - Docket No. 4288

Dear Ms. D'Alessandro:

The Rhode Island Distributed Generation Standard Contracts Board ("Board") was notified by National Grid that the kilowatt capacity forecasted in the 2014 program docket filing on Monday, December 16, 2013 is no longer accurate because of additional capacity which will carry over from the 2013 program. There is now an additional 3,000 kilowatts available for the 2014 program, which will increase the program capacity to 16,352 kilowatts. The Board noted in its December 16th filing with the Public Utilities Commission ("Commission") that adjustments to the 2014 megawatt capacity may be necessary.

The Board will be convening a public meeting on January 9, 2014 at 9:30-11:00AM at the Department of Administration, Conference Room B, to discuss this development and determine what amendments are necessary to the 2014 program recommendations. Therefore, the Board anticipates making an amendment to the "Report and Recommendations Regarding the 2014 Distributed Generation Classes, Ceiling Prices and Targets" by mid-January.

If you have any questions regarding this development, please let me know.

Sincerely,

Daniel W. Majcher, Esq.

DWM/njr
