PUC Docket No. 4290- Proposed Low Income Home Energy Assistance Program Enhancement Plan Rates

---

Low Income Home Energy Assistance Program (LIHEAP)<sup>1</sup> Enhancement Charge- 2017

In accordance with RJGL § 39-1-27.12<sup>2</sup>, the Rhode Island Department of Human Services (DHS) files the following rate as the LIHEAP Enhancement Charge Rate for 2017:

**The LIHEAP Enhancement Charge shall be increased back to eighty-three cents per month for each customer for the calendar year 2017, with the term "customer" defined as any person<sup>3</sup> taking service from an electric or a gas distribution company<sup>4</sup> at a single point of electricity or gas delivery or electric or gas meters, with a maximum total annual LIHEAP Enhancement Charge to any customer<sup>5</sup> capped at ten dollars (\$10.00).**

The LIHEAP Enhancement Fund has a balance of \$471,270 through June of 2016. The Rhode Island Department of Human Services recommends that the funds collected from the rate be deposited into the same single fund/account as last year for consistency. The electric and gas company will provide a credit in an amount specified by the Rhode Island Department of Human Services to customer accounts that are receiving LIHEAP assistance payments.

The Rhode Island Department of Human Services has filed its State LIHEAP Plan with the U.S. Department of Health and Human Services to define eligibility for a household to participate in LIHEAP at sixty percent (60%) of the State Median Income (SMI) in the State of Rhode Island consistent with RJGL § 39-2-1.1(d).

The Rhode Island Department of Human Services and the Community Action Program agencies will continue to make designation of the qualifying customer accounts receiving LIHEAP payments through the 2017 LIHEAP eligibility criteria. Accounts receiving a 2017 benefit, both Primary and/or Crisis grants, will receive one additional credit from the LIHEAP Enhancement Fund. After consultation with the Division of Public Utilities and Carriers, the electric and gas Distribution Company, Community Action Program agencies, and other advocacy organizations presenting the interests of LIHEAP-eligible households, DHS will establish the amount of credits<sup>6</sup> to be applied to customers' accounts that are receiving LIHEAP payments.

<sup>1</sup> The LIHEAP is the federal Low Income Home Energy Assistance Program.

<sup>2</sup> Public Law of 2011, Chapter 383 and 412 which were signed into law on July 13, 2011 and amended June 19 2014, see Public Law of 2014, Chapter 145.

<sup>3</sup> "Person" includes an individual, trust, firm, joint stock company, corporation (including a quasi-government corporation), partnership, association, syndicate, municipality, political subdivision, municipal or state agency, or other government agency, club, nonprofit agency, or any interstate body, and his, her, its, or their lessees, trustees, or receivers appointed by any court.

<sup>4</sup> The term "electric and natural gas distribution company" is defined in RIGL § 39-1-27.12(1)

<sup>5</sup> This definition of "customer" is conceptually congruent with the definition of "customer" in RIGL § 39-1-2(9) which applies specifically to electric company customers.

<sup>6</sup> Design of the appropriate credit amounts and their application are dependent in part both on the level of federal appropriations, and on any integration of the LIHEAP Enhancement Plan provisions of RIGL § 39-2-1 regarding the maintenance or restoration of utility service and arrearage payment provisions.
