PROCEDURAL SCHEDULE

To: Service List in Docket No. 4344
From: Cynthia G. Wilson-Frias, Senior Legal Counsel
Date: August 31, 2012
Re: AT&T's Petition to Investigate YMax's Tariff

Since the August 10, 2012 procedural conference call, on August 28, 2012, YMax has submitted a revised tariff in Docket No. 3735 which was circulated by our Commission Clerk and which cover letter stated, "...this tariff filing reverses definitional changes and changes in the general description of switched access services, and in the description of rate categories....the instant filing is intended to eliminate the controversial language and thereby obviate the need for further proceedings in this docket."

On August 30, 2012, YMax filed a letter from Mr. Del Sesto in this docket reiterating the comments in the cover letter referenced above. He stated that in light of the revised filing, "there is no need for further proceedings in this Docket and the Commission should close this Docket." Additionally, noting that there is certain information YMax agreed to circulate which is still outstanding, Mr. Del Sesto suggested that there is no longer a need for this information to be provided unless the Commission still considers it necessary.

This docket will not be closed until such time as the Commission rules on the revised tariff at an Open Meeting and also determines that the revised tariff does, in fact, moot the issues raised by AT&T. However, in light of the fact that the revised tariff has been filed, I believe that YMax can hold off on circulating the previously requested information at this time. I would like to keep the conference call on the calendar for September 5, 2012. I expect it to be brief.

I expect YMax's revised tariff filing to be considered at the Commission's Open Meeting currently scheduled for September 26, 2012. I would like to set a date for the filing of any objection by AT&T and Verizon to the revised tariff as well as a position of each of the parties whether they agree with YMax that the revised tariff satisfies the concerns raised in this docket and whether the docket may be closed and under what procedural method.

The conference call is scheduled for **Wednesday, September 5, 2012 at 10:00 A.M.** to further discuss the procedure for this matter.

The call-in number is 1-877-820-7831, passcode 9845174
