Luly E. Massaro, Commission Clerk
Rhode Island Public Utilities Commission
89 Jefferson Boulevard
Warwick, RI 02888

**RE: Docket 4393 and Docket 4490 - Renewable Energy Procurement Plan
Rhode Island RES RFP Summary and Request for Confidential Treatment**

Dear Ms. Massaro:

In accordance with Rule 1.2(g) of the Rhode Island Public Utility Commission's (PUC) Rules of Practice and Procedure, enclosed are ten (10) copies of a redacted Summary of The Narragansett Electric Company's d/b/a National Grid (National Grid or Company) request for proposal (RFP) process to provide NEPOOL-GIS certificates in Rhode Island. The Company conducted this RFP pursuant to its Renewable Energy Procurement Plans (Plans), which the PUC approved at its Open Meetings on June 28, 2013 in Docket No. 4393 and June 30, 2014 in Docket No. 4490. As part of the Plans, National Grid committed to file with the PUC a summary of the RFP.

National Grid respectfully requests confidential and privileged treatment of the unredacted version of Attachment 1 described below. This attachment contains commercially sensitive market information, the disclosure of which could affect the balance of the renewable energy certificate markets as well as National Grid's ability to negotiate competitive terms with its renewable suppliers. Therefore, in accordance with Rule 1.2(g) of the PUC's Rules of Practice and Procedure and R.I.G.L. § 38-2-2(4)(i)(B), I have enclosed a Motion for Protective Treatment of Confidential Information. In compliance with Rule 1.2(g), the Company is providing one complete unredacted copy of the confidential documents in a sealed envelope marked **"Contains Privileged and Confidential Materials – Do Not Release."** The Company has also provided copies of the confidential, unredacted documents to Steve Scialabba at the Rhode Island Division of Public Utilities and Carriers.

The enclosed document labeled as Attachment 1 is a confidential summary of the RFP process to provide NEPOOL-GIS certificates in Rhode Island. Attachment 1 also identifies the key actions National Grid took to procure NEPOOL-GIS certificates.

Page 2 of 2

National Grid has included redacted versions of the RFP Summary for the public record. National Grid will provide copies of the unaccepted bids to the Participating Purchasers that have signed confidentiality agreements with the Company.

Thank you for your attention to this filing. If you have any questions concerning this matter, please contact me at (401) 784-7288.

Very truly yours,

Docket Nos. 4393 and 4490

**NATIONAL GRID’S MOTION FOR PROTECTIVE TREATMENT
OF CONFIDENTIAL INFORMATION**

National Grid¹ respectfully requests that the Rhode Island Public Utilities Commission (PUC) provide confidential treatment and grant protection from public disclosure certain confidential, competitively sensitive, and proprietary information submitted in the above-captioned dockets, as permitted by PUC Rule 1.2(g) and R.I.G.L. § 38-2-2(4)(B). National Grid also respectfully requests that, pending entry of that finding, the PUC preliminarily grant National Grid’s request for confidential treatment pursuant to PUC Rule 1.2 (g)(2).

I. BACKGROUND

On May 1, 2015, National Grid filed with the PUC a redacted and confidential (unredacted) summary of the Company’s request for proposal (RFP) process to provide NEPOOL-GIS certificates in Rhode Island (May 1 Filing). This summary, labeled as Attachment 1 in the May 1 Filing and titled, *Renewable Energy Certificate Procurement Summary April 2015*, is a confidential summary of the Company’s RFP process to provide NEPOOL-GIS certificates in Rhode Island. Attachment 1 also identifies the key actions National Grid took to procure

¹ The Narragansett Electric Company d/b/a National Grid (National Grid or the Company).

NEPOOL-GIS certificates. The Company conducted this RFP pursuant to its Renewable Energy Procurement Plans (Plans), which the PUC approved at its Open Meetings on June 28, 2013 in Docket No. 4393 and June 30, 2014 in Docket No. 4490. As part of the Plans, National Grid committed to file with the PUC a summary of the RFP. Attachment 1 contains commercially sensitive market information relating to the Company's RFP, the disclosure of which could affect the balance of the renewable energy certificate markets as well as National Grid's ability to negotiate competitive terms with its renewable suppliers. Because National Grid considers this information as confidential and proprietary, National Grid respectfully requests that the PUC treat the information contained in Attachment 1 as confidential.

II. LEGAL STANDARD

The PUC's Rule 1.2(g) provides that access to public records shall be granted in accordance with the Access to Public Records Act ("APRA"), R.I.G.L. §38-2-1 *et seq.* Under the APRA, all documents and materials submitted in connection with the transaction of official business by an agency is deemed to be a "public record," unless the information contained in such documents and materials falls within one of the exceptions specifically identified in R.I.G.L. §38-2-2(4). Therefore, to the extent that information provided to the PUC falls within one of the designated exceptions to the public records law, the PUC has the authority under the terms of the APRA to treat such information as confidential and to protect that information from public disclosure.

In that regard, R.I.G.L. § 38-2-2(4)(B) provides that the following types of records shall not be deemed public:

Trade secrets and commercial or financial information obtained from a person, firm, or corporation which is of a privileged or confidential nature.

The Rhode Island Supreme Court has held that this confidential information exemption

applies where disclosure of information would likely either (1) impair the Government's ability to obtain necessary information in the future; or (2) cause substantial harm to the competitive position of the person from whom the information was obtained. Providence Journal Company v. Convention Center Authority, 774 A.2d 40 (R.I. 2001). The first prong of the test is satisfied when information is voluntarily provided to the governmental agency and that information is of a kind that would customarily not be released to the public by the person from whom it was obtained. Providence Journal, 774 A.2d at 47. National Grid meets the second prong of this test, which applies here.

II. BASIS FOR CONFIDENTIALITY

The Company seeks confidential treatment of the bidding, pricing, and other related market information included in Attachment 1. Release of this type of information would be commercially harmful to the Company and to its customers since potential bidders could use this information in such a way that would impede the Company's ability to obtain the best possible price for its customers. This information is confidential and privileged information of the type that the Company would ordinarily not make public. Moreover, the dissemination of this type of information could impact the Company's ability to obtain advantageous pricing in the future.

III. CONCLUSION

Accordingly, the Company respectfully requests that the PUC grant protective treatment to the confidential RFP information included in Attachment 1 to the Company's May 1 Filing.

WHEREFORE, for the foregoing reasons, the Company respectfully requests that the PUC grant its Motion for Protective Treatment.

Respectfully submitted,

NATIONAL GRID

By its attorney,

NATIONAL GRID
RENEWABLE ENERGY CERTIFICATE
PROCUREMENT SUMMARY
APRIL 2015
FOR THE NARRAGANSETT ELECTRIC COMPANY
FOR THE OBLIGATION YEARS 2014 & 2015

1. RFP Issued

The Narragansett Electric Company d/b/a National Grid (“National Grid” or the “Company”) issued its Request for Proposals (“RFP”) to Provide NEPOOL-GIS Certificates in Compliance with the Rhode Island Renewable Energy Standard (“RES”)¹ on April 16, 2015 directly to the renewable generators who have filed their renewable energy applications for certification with the Rhode Island Public Utilities Commission (“RIPUC”) and organizations that have expressed interest in receiving RFPs from National Grid.

The RFP was also distributed to all members of the NEPOOL Markets Committee and posted on National Grid’s energy supply website. As a result, the RFP had wide distribution throughout the New England energy supply marketplace.

The procurement was conducted in accordance with the Company’s 2014 Renewable Energy Procurement Plan filed on March 1, 2013 (approved June 28, 2013) and the 2015 Renewable Energy Procurement Plan filed on March 3, 2014 (approved June 30, 2014) with the RIPUC and in compliance with the RES. The RIPUC issued written orders for the 2014 Plan on July 2, 2013 (Order No. 21094) and the 2015 Plan on February 23, 2015 (Order No. 21826).

The RFP sought a specified quantity of Renewable Energy Certificates (“RECs”) that comply with the RES to satisfy a portion of National Grid’s Standard Offer Service RES Obligations for the calendar years 2014 and 2015.

The quantity of RECs specified in the Procurement Plans were updated to include reconciled load data through December 31, 2014, initial loads for January thru March 2015 and estimated loads for remaining 2015 RES obligations. A calculation of the quantities of RECs requested is provided in Exhibit 1.

2. Key RFP Dates

The RFP was issued on April 16, 2015.

Respondent Proposal Information and proposed contract modifications were received on April 24, 2015.

¹ R.I.G.L. § 39-26-1, et seq., Renewable Energy Standard.

Pricing was received on April 28, 2015 from [REDACTED] suppliers. The bidders were:

A summary of the bids received is found in Exhibit 2.

The respondents were informed of awards on April 28, 2015.

3. Contract Submissions

[REDACTED] bidders submitted contract comments to National Grid in the form of proposed revisions to the Certificate Purchase Agreement. These comments were similar to previous agreements with the bidders.

4. Award of New Renewable RECs

[REDACTED] bidders provided offers to sell National Grid RECs from New renewable resources. Exhibit 3 provides an analysis and graphical summary of the bids received ranked by bid price. As shown in Exhibit 3, the RFP process selected the bids that provided the lowest cost up to the quantity required and did not perform any adjustment for non-price benefits.

5. Award of Existing Renewable RECs

[REDACTED] bidders provided offers to sell National Grid RECs from Existing renewable resources. Exhibit 4 provides an analysis and graphical summary of the bids received ranked by bid price. As shown in Exhibit 4, the RFP process selected the bids that provided the lowest cost up to the quantity required and did not perform any adjustment for non-price benefits.

6. Summary of Award

On April 29, 2015, National Grid shared the REC bids with Division Staff for review.

Exhibit 5 is a list of the winning bids by REC type and year. National Grid expects to purchase a total of [REDACTED] RECs at a cost of [REDACTED]. The following is a summary of the RECs procured in this RFP.

7. Procurement Process Analysis

National Grid received offers for the [REDACTED] in this RFP. As a result, the Company awarded [REDACTED] New RECs for 2014. With this RFP, the Company estimates it has procured [REDACTED] of the New RECs needed to meet its estimate of the 2014 New REC obligation ([REDACTED] from the current and previous purchases and [REDACTED] from RECs provided by Long-Term Contracts²). The Company estimates it has [REDACTED] 2015 RES Compliance.

Also, the Company awarded the [REDACTED] New RECs for 2015, which represents approximately [REDACTED] of the estimated 2015 RES obligation. The Company anticipates [REDACTED] of the 2015 RES New obligation will be met with New RECs provided via Long-Term Contracts, [REDACTED] from previous purchases and the remaining [REDACTED] through future RFPs.

The Company awarded [REDACTED] Existing REC's of the requested amount of [REDACTED] Existing RECs for 2014. At the conclusion of this solicitation, the Company estimates it has procured [REDACTED] of the Existing RECs needed to meet its estimate of the 2014 Existing REC obligation.

Finally, the Company awarded [REDACTED] Existing RECs for 2015. The Company estimates it has procured [REDACTED] of its 2015 Existing REC obligation with the remaining [REDACTED] to be procured in future solicitations.

Exhibit 6 is a graphical summary of:

- the number of RECs procured in this RFP;
- the number of RECs procured prior to the RFP (previous RFPs, previous unsolicited purchases through brokers, RECs banked from previous compliance year);
- RECs forecasted to be provided via Long-Term Contracts; and
- the estimated balance of RECs that must be procured to satisfy the RES obligations.

Exhibit 7 summarizes the amount of RI RES-compliant RECs created within the NEPOOL Generator Information System ("GIS") for 2014, as well as for 2012 and 2013.³ Exhibit 8 lists the Tier 1 Renewable Portfolio Standards ("RPS") obligation percentages in the New England states. Some states have very similar RPS eligibility requirements to those in other states. This allows certain RECs to be qualified to satisfy RPS obligations in multiple states. These classes are often referred to as Tier 1 RECs. These RECs are the most widely traded in the region and often have similar prices.

² Contracts entered to comply with the Long-Term Contracting Standards for Renewable Energy Act and the Distributed Generation Standards Contract Act.

³ <http://www1.nepoolgis.com/myModule/rpt/myrpt.asp?r=107&TabName=RPS>

Since the last RES Procurement Summary filing on October 30, 2014, National Grid has not accepted any unsolicited offers for 2014 or 2015 RI RECs.
