PUBLIC UTILITIES COMMISSION

IN RE: PROVIDENCE WATER SUPPLY BOARD :  
GENERAL RATE FILING : DOCKET NO. 4406

KENT COUNTY WATER AUTHORITY'S FOURTH SET OF DATA REQUESTS  
DIRECTED TO PROVIDENCE WATER SUPPLY BOARD  
(Issued July 17, 2013)

KCWA 4-1. Regarding the length of pipe by size included on the Tab "Inch-Miles Calculations" of the spreadsheets provided by Mr. Smith: Please provide an updated listing by length and size for the most recent period available.

KCWA 4-2. Does Providence Water have an estimate of the total length of customer service pipe including the full length for the tapped main all the way to the customer's building, not just to the property line? If Providence Water does not have such an estimate please provide Providence Water's opinion on the best way to estimate this length and provide the estimate.

KCWA 4-3. Please explain why allocation symbols X1 and X2 on the spreadsheet provided in response to Div 3-1 only refer to one year (2012) rather than the three years in the prior versions of Providence's model.

KCWA 4-4. In the response to KCWA 1-13 Mr. Smith stated that he would update his rebuttal testimony so the allocation factors for HM, HOC, and HMC would reflect the ***three year*** period FY 2010-2012. Please provide an updated version of the spreadsheet provided in response to Div 3-1 that that is consistent with that response and shows the three year average for these factors and NOT a different period from that provided in the response to KCWA 1-13.
