KCWA 5-2: The response to BCWA 1-14 shows two connections to Lincoln yet the response to BCWA 1-11 only shows one such connection (Louisquisset Pike). Please explain and provide any missing information if applicable.

Response: Providence Water (PW) currently has two connections that can serve the Lincoln Water Commission (LWC). The 16" connection on Louisquisset Pike is LWC's primary service connection with PW. The 16" connection on Charles Street is an alternate connection that is normally closed and only used in case of an emergency. Both connections are metered at the same location.
