

EXHIBIT A

AGREEMENT OF SALE & LICENSE

This Agreement of Sale and License (“Agreement”), is made as of this ____ day of _____, _____, by and between The Narragansett Electric Company d/b/a National Grid, a corporation organized and existing under the laws of the State of Rhode Island, having its principle place of business at 280 Melrose Street, Providence, Rhode Island, 02907, (hereinafter referred to as the “Company”) and the [City or Town Name], a municipality organized and existing under the laws of the State of Rhode Island, having its principle place of business at Street Address, City/Town, Rhode Island, Zip Code (hereinafter referred to as the “Town”). The Company and the the Town may hereinafter be referred to individually as a “Party”, and, collectively, as the “Parties.”

WHEREAS, the Company presently provides street lighting services to the the Town pursuant to multiple Company tariffs approved by the Rhode Island Public Utilities Commission (the “PUC”) ; and

WHEREAS, the Town has resolved to exercise its rights under section 39-30-1 et seq. of Chapter 39 of the Rhode Island General Laws (“Section 39”) to buy the Company’s existing outdoor street and/or area lighting and associated equipment located within the boundary limits of the [City/Town Name] as shown and described on Schedule A attached hereto and made a part hereof (each, individually, a “Facility” and, collectively, the “Facilities”); and

WHEREAS, such sale shall be made pursuant to the Narragansett Electric Company Street and Area Lighting – Customer Owned Equipment S-05, Retail Delivery Service Tariff (“S-05 Tariff”), approved by the Commission; and

WHEREAS, the Town will hereby purchase street and area lighting Facilities located in or upon Company’s Structures pursuant to R.I.G.L. § 39-30-1 et seq., and desires to retain and/or make Attachments of existing Facilities in or upon Structures of Company; and

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Company and the Town agree to the following terms and conditions:

I. BASIC UNDERSTANDINGS

1. The Company agrees to sell, and the Town agrees to purchase, the Facilities, subject to the terms and conditions of this Agreement, the S-05 Tariff and Section 39, on an “as is, where is” basis.
2. Upon Closing (as defined below), the Company will convey to the the Town all of its

rights, title and interests in such Facilities, including any existing warranties; provided, however, that they are provided as is and Company is not making any representations or warranties to the the Town regarding the same.

3. Company's list of Facilities in Schedule A is accurate and complete as of the Closing Date. All Facilities are properly operating except as otherwise noted in Schedule A and at Closing Company hereby assigns to the Town all required rights, easements, grants and licenses to operate the Facilities along with any documentation establishing such rights.

4. As of the Closing Date (as defined below), the the Town shall assume all responsibilities and obligations associated with ownership of the Facilities, including, without limitation, those contemplated by this Agreement and the S-05 Tariff.

5. To the extent that Company possesses existing electronic or paper maps that relate to the Facilities, and such maps are able to be reproduced, Company shall furnish the the Town with one (1) copy of each such map in its current form at the Closing.

II. PURCHASE PRICE

1. The Town shall pay to Company at Closing a total consideration of \$ _____ ("Purchase Price") for the Facilities.

2. Company shall pay all taxes on the Facilities up to and including the Closing Date.

III. CLOSING

1. CLOSING: The closing of the purchase and sale of the Facilities ("Closing") shall occur on or about _____, or such other date as may be mutually agreed by the Parties ("Closing Date"). At the Closing, the Town shall pay the Purchase Price to Company, and Company shall deliver to the the Town a Bill of Sale in the form attached hereto as Schedule B and incorporated herein by reference (the "Bill of Sale").

2. LIENS AND ENCUMBRANCES: Company represents to the Town that the Facilities are free from liens and encumbrances.

IV. TRANSFER, OPERATION AND MAINTENANCE OF THE FACILITIES

1. DESIGNATION: The Town must affix on or near each luminaire one clear, legible and comprehensive lighting source identification label. The tags shall be yellow with black lettering. The Identification Tag shall read as follows: "STREET LIGHT PROPERTY OWNED AND OPERATED BY" and THE TOWN'S NAME. The Town's name may be printed on the tag using indelible ink.

2. DEMARCATION OF OWNERSHIP: The point of ownership demarcation shall be deemed to be the existing connection point where the applicable street light Facility is energized from the electric distribution system ("Connection Point").

3. THIRD PARTY LIGHTING: Lighting facilities (including, without limitation poles,

standards, arms, brackets, wires, cable, conductor, conduit, foundations and luminaires) owned by Company and used to provide regulated lighting services to independent third party customers (each, a "Third Party Lighting Asset" or collectively, the "Third Party Lighting Assets") shall not be included in the Facilities that are being transferred to the the Town through this Agreement. The transfer of Facilities shall exclude facilities upon which Third Party Lighting Assets are attached, physically and/or electrically ("Third Party Lighting Facility(ies)"); provided, however, the Company shall transfer the requested

luminaires and associated brackets or arms to the the Town on these facilities upon which Third Party Lighting Assets are attached. Notwithstanding the above, if such Third Party Lighting Asset is for the use of an organization closely related to the the Town (such as a public school system or regional transfer facility) then the Third Part Lighting Assets may be purchased by the the Town if all parties agree.

4. **AUTHORITY TO PERFORM CONNECTIONS:** Company shall be the sole Party with authority to perform or make any and all (permanent and temporary) connections or disconnections to the Company's electric distribution system or assets for the purpose of providing electric service to the the Town's outdoor street and area lighting system or otherwise in connection with the Facilities. The Town is prohibited from and shall not permit or cause any third party to, access or ingress any of the Company's enclosed or underground primary or secondary electric distribution system infrastructure, including, but not limited to, manholes, handholes, vaults, transformers, and switchgears.

5. **JOINT USE INFRASTRUCTURE:** Some of the Facilities ("Coexisting Facilities") are currently installed or otherwise coexist, in whole or in part, on or within Company's conduit, vaults, or other Company facilities, assets or infrastructure ("Joint-Use Structures"). If Company or owners of third party assets elect to significantly modify or replace any Joint Use Structure, including, without limitation, making significant repairs or upgrades to such Joint Use Structure or associated assets it shall be the sole responsibility of the Company or the owner of the third party lighting asset to relocate the the Town's Coexisting Facilities associated with such Joint Use Structure at their expense and in compliance with all applicable laws, rules, regulations codes and standards. If the Town determines that the Coexisting Facilities require significant repair, modification or replacement for the Town's purposes it shall be the sole responsibility of the Town to relocate or modify the the Town's Coexisting Facilities associated with such Joint Use Structure at the Town's expense and in compliance with all applicable laws, rules, regulations codes and standards.

The Town shall participate in any forum, group or organization and utilize any designated common information management system established to facilitate communications, priority, schedule and any other functions necessary to manage, locate or identify the attachment assets and actions of all customers and other facility owner(s) which are in conjunction with or may have an impact upon an Attachment.

Where the Facilities are an integrated part of the overhead and underground infrastructure owned by the Company which includes, but not limited to, circuitry, structures and

equipment to support the delivery of energy between 120v and 34.5 Kv (the “Electric Distribution System”), both parties agree to promote the physical separation of Facilities from the Electric Distribution Equipment if such can reasonably be done in the course of the Company’s ordinary construction at the Company’s expense.

The Town shall install within Attachment circuitry a Company approved “in-line fuse” assembly or other form of disconnect device to provide electrical separation between Company’s and the Town’s electrical systems. The disconnect device shall be located as close in proximity to the energizing source or Connection Point as feasibly practical and be readily accessible to both Company and the Town. The disconnect device shall, at a minimum, create separation of the the Town’s energized conductor, however the Company recommends a dual pole disconnect device to create separation of the the Town’s energized circuit. The installation of these disconnect devices by the Town shall occur during each application of ordinary circuit maintenance, or changes to the circuit and/or prior to each Company connection or reconnection. All existing Attachments shall be so equipped within ten (10) years following execution of this Agreement.

The installation of Facilities such as splice boxes and coiled cables within Structures is discouraged but may be permitted provided the the Town obtains written specific authorization from the Company. Where splice boxes are allowed by the Company, cable slack shall be installed by the Town to allow the Facility to be lifted clear of the Structure to allow for Company or other facility maintenance and splicing.

6. ATTACHMENT RIGHTS & EASEMENTS: The Company shall provide all necessary and appropriate attachment rights or consents required for the the Town to maintain and operate the Facilities or otherwise required in connection with the Facilities, including, without limitation, rights to attach to support infrastructure (i.e. poles or underground infrastructure) (the “License”) together with any existing evidence of the License. The License(s) shall (1) authorize existing and future Attachments upon Company’s Poles, (2) provide definition of individual Facilities through the designation of a unique identification reference, (3) utilize the identification reference as the individual license reference, (4) recognize Facilities that are considered Attachments based solely upon the extended use of the Connection Point, and (5) represent Facilities for the purpose of inventory and billing administration. Company shall assign all existing easements, rights of way or other access rights or grants of location associated with the pole, to the extent allowed by such agreements.

Attachments and all related operation and maintenance functions by the the Town or designated contractor shall comply with all applicable federal, state and local laws, regulations and codes.

Pole and Structure space licensed to the Town hereunder is for the Town's exclusive use but nothing herein contained shall be construed as a grant of any exclusive authorization, right or privilege to the Town to use the rest of any Pole or Structure subject to this Agreement.

The License is subject to Company's right to relocate the Facilities if/as necessary for the maintenance or repair of Company's distribution system or to provide for and maintain public safety. If the Company determines that an Attachment does not comply with the provisions of this Agreement and that the existing physical and/or operational conditions of such Attachment is an emergency, threatens the safety of persons or property, and/or interferes with the performance of Company's service obligations, within fifteen (15) days following written notification by the Company, the Town shall, at its sole cost and expense, remedy the condition which may include, but not be limited to, the relocation, reorientation, transfer or de-energizing of the Attachment, and, upon completion, provide written notification to the Company specifying the remedy action taken. Company may, upon fifteen (15) days written notice to the Town and the unsuccessful implementation of other remedies or the continued operation of the Attachment, deem the License for that Attachment revoked and take timely action to remove the Attachment(s) or perform such other work necessary to alleviate the non-conformance or emergency condition(s). All work performed by the Company shall be at the Town's expense and without any liability incurred by the Company to the Town for loss of service and/or damage or injury to Attachments.

7. NEW LIGHTING FACILITIES:

All new street lighting facilities or other equipment that the the Town requests to be connected to the Company's electric distribution system ("New Attachments") shall meet the requirements of the Company's applicable engineering standards and other design requirements. The Town shall, at its own expense, construct and maintain its New Attachments on Company's Poles in a safe condition and in a manner that: (i) does not interfere with Company's operation of its electric distribution system, (ii) conflict with the use of Company's Poles by Company or by any other authorized user of Company's Poles, or (iii) electrically interfere with Company's facilities attached thereon. The Town shall use qualified electrical workers to conduct such work, meaning any worker, electrical worker, contractor or other designated individual having successfully achieved a specified minimum level of training and/or experience including, but not limited to all applicable federal, state, and local work rules, including compliance with OSHA 29 CFR 1910.269 as it may be amended from time to time. The Town shall immediately notify Company of the installation of any New Attachments any change to any Facilities that impacts the applicable rate or charge. All existing and New Attachments or Facilities must conform to applicable Company tariffs and policies. New Attachments that demand electrical energy service and are not Facilities must either be metered or adequately addressed by another tariff for electrical service.

The Town may not make New Attachments to the Company's underground structures.

If the New Attachment will increase the load on the joint use pole or adversely affect the distribution system (eg, introducing an increase in harmonics above the level typical of the current street lighting that would be harmful to the distribution system, or the use of a fixture or device with lower power factor than the current utility owned streetlights), the

Town shall apply for an attachment license pursuant to the form attached at Schedule C. A Field Survey is required for such a New Attachment. The standard charge assessed for the Field Survey is \$130.00. The Town shall pay the actual incurred cost of any Make-Ready Work necessary to prepare the pole for the New Attachment.

If the New Attachment does not increase the load on the joint use pole or adversely effect the distribution system (eg, installing an LED light that is lighter or equal in weight and presented a equal or lower cross sectional wind area, provided for the same or less harmonics and the same or better power factor) it is an "in kind" replacement. National Grid need only be notified of an in kind replacement if there is a change in wattage and fixture type or electrical consumption that impacts applicable rates or charges.

Company reserves the right, at its sole discretion, to make inspections of any part of the Town's Attachments at the Town's expense, if the inspection reveals either of the following: (a) Discrepancy in type, style or size of installed Facility (i.e. luminaire) that impacts rates as compared with Company's records, or (b) Any situation creating a safety-related emergency or any condition that prevents safe access to Company's Pole(s) or any facilities installed on Company's Pole(s). Prior to the performance of such inspections, at the Town's expense, Company shall provide advance notice to the Town stating the reason for the inspection. The Town may join Company in the inspection of the Town's Attachments.

If the Town's Attachments or New Attachments or any part(s) thereof are not placed, maintained, and removed in accordance with this Agreement, within fifteen (15) days following written notification by the Company, the Town shall, at its sole cost and expense, remedy the condition which may include, but not be limited to, the relocation, reorientation, transfer or de-energizing of the Attachment, and, upon completion, provide written notification to the Company specifying the remedy action taken. Company may, upon fifteen (15) days written notice to the Town and the unsuccessful implementation of other remedies or the continued operation of the Attachment, deem the License for that Attachment revoked and take timely action to remove the Attachment(s) or perform such other work necessary to alleviate the non-conformance or emergency condition(s). All work performed by the Company shall be at the Town's expense and without any liability incurred by the Company to the Town for loss of service and/or damage or injury to Attachments.

8. LIABILITY, INDEMNIFICATION AND INSURANCE

The Town shall be liable for any damages it causes to the facilities of Company and of Other customers attached to Poles and/or Structures, and the Town assumes all responsibility for any and all loss from such damage caused by the Town or any of its agents, contractors, servants or employees. The Town shall make an immediate report to Company and any Joint Owners, Joint Users and/or other customers of the occurrence of any such damage and agrees to reimburse the respective parties for all costs incurred by Company, Joint Owners, Joint Users and/or other customers in making repairs to their respective facilities.

Company shall be liable for any damages it causes to the Facilities and Company assumes all responsibility for any and all loss from such damage caused by Company or any of its agents, contractors, servants or employees. Company shall make an immediate report to the Town of the occurrence of any such damage and agrees to reimburse the Town for all costs incurred in making repairs to the Facilities.

Except to the extent caused by the negligence of Company, the Town shall, to the full extent allowed by law and to the extent of the Town's insurance coverage (under which Company shall be named an additional insured), and shall cause any party performing work in connection with this Agreement on behalf of the Town to, defend, indemnify and save harmless Company, its affiliates and their respective officers, directors, employees, agents, contractors, representatives, successors and assign, against and from any and all liabilities, claims, suits, fines, penalties, damages, losses, fees (including reasonable attorneys' fees), costs and expenses (including reasonable costs and expenses incurred to enforce this indemnity), (hereinafter "Claims") arising from or in connection with the Town's installation, operation, maintenance, or removal of Facilities and/or Attachments including, but not limited to, those Claims which may be imposed upon, incurred by or asserted against Company, by reason of:

- (a) Any work or action done upon the Poles or within Structures licensed hereunder or any part thereof performed by the Town or any of its agents, contractors, servants, or employees;
- (b) Any use, occupation, condition, operation of the Poles and/or Structures or any part thereof by the Town or any of its agents, contractors, servants, or employees;
- (c) Any act or omission on the part of the Town or any of its agents, contractors, servants, or employees, for which Company may be found liable;
- (d) Any accident, injury (including, but not limited to, death) or damage to any person or property occurring upon the Poles and/or within Structures or any part thereof or arising out of any use thereof by the Town or any of its agents, contractors, servants, or employees, except where such work is performed by Company;
- (e) Any failure on the part of the Town to perform or comply with any of the covenants, agreements, terms or conditions contained in this Agreement;
- (f) Any payments made under any Workers' Compensation Law or under any plan for employee disability and death benefits arising out of any use of the Poles or Structures by the Town or any of its agents, contractors, servants, employees, or;
- (g) By the installation, operation, maintenance, presence, use, occupancy or removal of the Town's Attachments by the Town or any of its agents, contractors, servants or employees or by their proximity to the facilities of other parties attached to Poles and/or Structures, including without limitation, taxes, special charges by others, and from and against all claims and demands for infringement of patents with respect to the

manufacture, use, and operation of the Town's Attachments in combination with Poles or Structures, or otherwise.

Except to the extent caused by the negligence of the Town, the Company shall, to the full extent allowed by law and to the extent of Company's insurance coverage (under which the Town shall be named an additional insured), cause any party performing work in connection with this Agreement on behalf of Company to, defend, indemnify and save harmless the Town, its affiliates and their respective officers, directors, employees, agents, contractors, representatives, successors and assign, against and from any and all liabilities, claims, suits, fines, penalties, damages, losses, fees (including reasonable attorneys' fees), costs and expenses (including reasonable costs and expenses incurred to enforce this indemnity), (hereinafter "Claims") arising from or in connection with Company's work including, but not limited to, those Claims which may be imposed upon, incurred by or asserted against the Town, by reason of:

- (a) Any work or action done upon the Poles or within Structures licensed hereunder or any part thereof performed by Company or any of its agents, contractors, servants, or employees;
- (b) Any use, occupation, condition, operation of the Poles and/or Structures or any part thereof by Company or any of its agents, contractors, servants, or employees;
- (c) Any act or omission on the part of Company or any of its agents, contractors, servants, or employees, for which the Town may be found liable;
- (d) Any accident, injury (including, but not limited to, death) or damage to any person or property occurring upon the Poles and/or within Structures or any part thereof or arising out of any use thereof by Company or any of its agents, contractors, servants, or employees, except where such work is performed by Company;
- (e) Any failure on the part of Company to perform or comply with any of the covenants, agreements, terms or conditions contained in this Agreement;
- (f) Any payments made under any Workers' Compensation Law or under any plan for employee disability and death benefits arising out of any use of the Poles or Structures by Company or any of its agents, contractors, servants, employees, or;
- (g) By the installation, operation, maintenance, presence, use, occupancy or removal of Company's poles or structures by Company or any of its agents, contractors, servants or employees or by their proximity to the Facilities, including without limitation, taxes, special charges by others, and from and against all claims and demands for infringement of patents with respect to the manufacture, use, and operation of Company's Poles or Structures, or otherwise.

The Parties and the parties affiliates, and their respective officers, directors, employees, representatives and contractors shall not be liable to each other for any indirect, consequential, punitive, incidental, special, or exemplary damages in connection with this

Agreement, or the Attachments contemplated herein, including, without limitation, the condition, design, engineering, installation, maintenance, construction, location, operation of, or failure of operation of, the Facilities Poles or Structures, under any theory of law that is now or may in the future be in effect, including without limitation: contract, tort, R.I.G.L. § 6-13.1-1 *et seq.* strict liability or negligence.

The provisions of this Article 8 shall survive the expiration or earlier termination of this Agreement or any license issued under this Agreement.

The parties shall, at their own sole cost and expense, obtain and keep in force comprehensive general liability insurance in terms and amounts commercially reasonable (but not less than any applicable statutory or regulatory limit or cap on liability) covering any action arising in connection with this Agreement.

9. MISCELANEOUS

1. This Agreement shall be governed by, performed, and construed in accordance with the laws of the State of Rhode Island without regard to the conflicts of law principles contained therein.
2. This Agreement constitutes the entire agreement between the Parties relating to the subject matter hereof and supersedes all previous agreements, discussions, communications, and correspondence. Any prior agreements, promises, negotiations, or representations not set forth in this Agreement are of no force or effect.
3. This Agreement and the rights and obligations set forth herein shall not be assigned by either Party without the written agreement of both Parties. This Agreement may not be amended or modified except in a writing signed by both Parties, and shall inure to and be binding upon the Parties and their respective successors and assigns.
4. If any provision of this Agreement is held invalid by any court or body of competent jurisdiction, the remainder of this Agreement shall remain in full force and effect.
5. Any notice given under this Agreement shall be in writing and shall be hand delivered, sent by registered or certified mail, delivered by a reputable overnight courier, or sent by facsimile with electronic confirmation of receipt, to the other party's representative as follows:

SCHEDULE A
DESCRIPTION OF STREET AND AREA LIGHTING FACILITIES

The Facilities include, without limitation any luminaire, supporting bracket, and/or wire, conductor, circuitry or other equipment, owned by the Town, existing or proposed to be placed on a Pole and connected to the distribution system at the Connection Point to be used principally to provide street and/or area lighting, and (ii) the Facilities, including without limitation, any wire, cable, and other hardware, equipment, apparatus, or device, owned by the Town, existing or proposed to exist in or upon Structures connected to the distribution system at the Connection Point for the purpose of delivering electrical energy or measuring electrical energy delivered to the Town owned luminaire(s) used to provide street and/or area lighting within the Town's geographic municipal boundary.

The point of ownership demarcation shall be deemed to be the existing connection point where the applicable street light Facility is energized from the electric distribution system ("Connection Point"). The Company shall retain ownership of the electric distribution system up to and including the Connection Point. The Town shall own the street lighting system from the Connection Point to the luminaire inclusive of the applicable Facilities.

The Facilities are more specifically itemized as follows:

SCHEDULE B

BILL OF SALE

THE NARRAGANSETT ELECTRIC COMPANY, a Rhode Island corporation with a principal place of business in Providence, Rhode Island, ("Company"), in consideration of \$ _____ paid by the City/Town Name ("the Town"), the receipt of which is hereby acknowledged, does hereby sell, transfer and assign all its right, title, and interest unto the Town, in the following described goods and chattels, to wit:

[Description of Facilities –Exhibit A]

THERE ARE NO PROMISES, COVENANTS OR UNDERTAKINGS WITH RESPECT TO THE FACILITIES OR THE TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT, EXCEPT AS SET FORTH EXPRESSLY HEREIN. THE EXPRESS COVENANT SET FORTH IN THE BILL OF SALE IS IN LIEU OF, AND COMPANY DISCLAIMS, ANY AND ALL OTHER WARRANTIES, GUARANTEES, PROMISES, CONDITIONS, UNDERTAKINGS OR REPRESENTATIONS (WHETHER EXPRESS OR IMPLIED, ORAL OR WRITTEN), WITH RESPECT TO THE FACILITIES OR ANY PART THEREOF, INCLUDING, WITHOUT LIMITATION, ANY AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS OR SUITABILITY FOR ANY PURPOSE (WHETHER OR NOT COMPANY KNOWS, HAS REASON TO KNOW, HAS BEEN ADVISED, OR IS OTHERWISE IN FACT AWARE OF ANY SUCH PURPOSE), OR COMPLIANCE WITH THE NATIONAL ELECTRIC CODE (NEC), NATIONAL ELECTRIC SAFETY CODE (NEC), OR THE RULES, REGULATIONS, AND PROVISIONS OF THE OCCUPATIONAL SAFETY AND HEALTH ACT (OSHA) WHETHER ALLEGED TO ARISE BY LAW, BY REASON OF CUSTOM OR USAGE IN THE TRADE, OR BY COURSE OF DEALING. THE FACILITIES ARE SOLD "AS IS." IN ADDITION, THE COMPANY EXPRESSLY DISCLAIMS ANY WARRANTY OR REPRESENTATION TO ANY THIRD PARTY WITH RESPECT TO THE FACILITIES OR ANY PART THEREOF.

TO HAVE AND TO HOLD the Facilities herein described unto the Town, its successors and assigns, to its and their own use and benefit forever.

IN WITNESS WHEREOF, THE NARRAGANSETT ELECTRIC COMPANY has caused these presents to be signed in its name and behalf by its duly authorized representative, this ____ day of Month, Year.
