RE: Docket 4536-C – Renewable Energy (RE) Growth Program Certifying the Rhode Island RE Growth Small-Scale Solar Aggregation as an Eligible Renewable Energy Resource
Request to Amend Aggregation

Dear Ms. Massaro:

The Narragansett Electric Company d/b/a National Grid (the Company) and its affiliates write to amend its June 26, 2015 filing in which the Company proposed to establish an aggregation for small-scale solar projects participating in the Rhode Island Renewable Energy (RE) Growth Program. The PUC approved the Company's proposal in Order No. 22015 dated July 31, 2015.

Because Rhode Island General Laws section 39-26.6-12(c) requires that at least 3 MW of nameplate capacity shall be carved out exclusively for small-scale solar projects in each of the first four program years, the Company included a generation unit nameplate capacity and a maximum demonstrated capacity of 12 MW in sections 2.2 and 2.3 of the Renewable Energy Resources Eligibility Form on page 4 of Attachment 1 in its June 26, 2015 filing.

Given the strong customer interest in the small-scale renewable energy class, and the extension of the RE Growth Program beyond its original five-year duration pursuant to R.I. Gen. Laws section 39-26.6-12(c)(5), the Company proposes to revise the 12 MW maximum demonstrated capacity to 140 MW.

Thank you for your attention to this matter. If you have any questions, please contact me at 781-907-2121.

Very truly yours,

Raquel J. Webster
