IN RE: NATIONAL GRID'S PROPOSED :
2016 STANDARD OFFER SUPPLY : DOCKET NO. 4556
PROCUREMENT PLAN AND 2016 :
RENEWABLE ENERGY SUPPLY :
PROCUREMENT PLAN : APRIL 3, 2015

**MOTION FOR INTERVENTION
OF NEXTERA ENERGY POWER MARKETING, LLC**

NextEra Energy Power Marketing, LLC ("NEPM") hereby moves the Public Utilities Commission ("PUC" or "Commission") to be designated an intervenor in the above-captioned docket pursuant to Section 1.13(b) of the Commission's Rules of Practice and Procedure. As grounds therefor, NEPM states as follows:

1. NEPM is a wholly-owned subsidiary of NextEra Energy, Inc. ("NextEra"). As of December 31, 2013, NextEra had consolidated revenues of approximately \$15.1 billion, approximately 42,500 megawatts of generating capacity, and approximately 13,900 employees in 26 states and Canada. NextEra's principal subsidiaries are Florida Power & Light Company, which serves approximately 4.7 million customer accounts in Florida and is one of the largest rate-regulated electric utilities in the United States, and NextEra Energy Resources, LLC ("NEER"), which together with its affiliated entities is the largest generator in North America of renewable energy from the wind and sun. NEPM, a subsidiary of NEER, is a wholesale supplier of electricity products in the New England markets and elsewhere. NEPM has previously participated in National Grid's Standard Offer Service ("SOS") procurements in Rhode Island.

2. In early March 2015, Narragansett Electric Company d/b/a National Grid filed the following procurement plans with the Commission: SOS Procurement Plan for large commercial and industrial ("C&I") customers and residential and small C&I customers for Year 2016 ("SOS

Procurement Plan”) pursuant to R.I.G.L. § 39-1-27.8; and Renewable Energy Standard Procurement Plan for Year 2016 (“RES Procurement Plan”) pursuant to R.I.G.L. § 39-1-26-4.

3. The Commission established a deadline of April 3, 2015 for interested persons to file Motions to Intervene in the instant proceeding to review the SOS Procurement Plan and the RES Procurement Plan. In this Motion, NEPM respectfully requests that it be designated an intervenor in the instant SOS and RES Procurement Plan review proceedings, with full participation rights.

4. Rule 1.13(b) of the Commission’s Rules provides that “any person claiming a right to intervene or an interest of such nature that intervention is necessary or appropriate may intervene in any proceeding before the Commission.”

5. Rule 1.13(b)(2) explains that intervention is necessary or appropriate for a person when, for example, such person has “[a]n interest which may be directly affected and which is not adequately represented by existing parties and as to which movants may be bound by the Commission’s action in the proceeding.”

6. As an active wholesale supplier of electric power to many of New England’s electric utilities, including National Grid here in Rhode Island, and as a company whose corporate affiliates also generate renewable electricity as well as provide retail competitive electric supply services, NEPM has unique interests in this proceeding that cannot be adequately represented by another party. As a result, NEPM has interests that may be substantially and directly affected by the outcome of this proceeding. Furthermore, NEPM’s intervention and participation is in the public interest. Therefore, NEPM should be permitted to intervene and fully participate in these proceedings, to the extent it deems appropriate.

7. NEPM has not yet determined the nature of its participation in this proceeding, but reserves rights to fully participate.

8. Counsel for the Division of Public Utilities and Carriers, National Grid and the Lieutenant Governor have stated that they are unlikely to oppose NEPM's intervention.

9. All notices and correspondence should be directed to:
