IN RE: REVIEW OF THE NARRAGANSETT :
ELECTRIC COMPANY d/b/a NATIONAL GRID : DOCKET NO. 4568
RATE DESIGN PURSUANT TO R.I. GEN. LAWS § 39-26.6-24 :

**DEPARTMENT OF THE NAVY'S
SECOND SET OF DATA REQUESTS
TO NATIONAL GRID**

Through counsel, the Department of the Navy (DON) makes the following data requests to National Grid.

DON 2-1 In response to Division 2-1 of Division's Second Set of Data Requests, The Company responded:

a. Yes, the Company defines a stand-alone DG facility as a generator with no associated load other than parasitic or station load.

b. The Company is proposing to apply the Access Fee only to net metered facilities that are not located behind the meter of their associated on-site load. These projects fit the definition of stand-alone facilities as stated in part a. of this response, and therefore, should be treated in a manner similar to other stand-alone projects.

Please state whether DG facilities (either existing or planned for future operation) on Navy Installations served by NG would be considered Stand-alone DG facilities?

DON 2-2 If yes, please explain how the DG facilities on Navy installations (existing or planned) are considered Stand-alone facilities under the Company's definition.
