**SUBJECT:** Docket No. 4586 -A & R Marine Corp., d/b/a Prudence Bay Islands  
Transport Rate Change Application

On May 24, 2016, A& R Marine Corp. filed compliance schedules and tariffs in order to reflect the Commission's open meeting decision of May 20, 2016 in the above referenced docket. The Division reviewed the filing and found that the calculation of the new rates and tariffs accurately reflect the Commission's decision in this docket. The Division recommends approval of the filed compliance rate and tariffs.

In this docket A&R proposed to charge the incremental difference on any advanced purchase tickets redeemed after the effective date of the rate change. According to A & R they have posted notices regarding this policy. This policy is the same as Interstate Navigation's policy related to advanced ticket purchases that are redeemed after the effective date of the rate change. This policy assures that all passengers and vehicles are charged the Commission approved rate at the time of travel. The Division doesn't object to A&R's proposed treatment of advanced ticket purchases.
