Electric Infrastructure, Safety, and Reliability Plan FY 2016 Reconciliation, Docket 4592

The Narragansett Electric Company d/b/a National Grid (“National Grid” or “the Company”) filed its Fiscal Year 2017 Infrastructure, Safety, and Reliability (ISR) Plan reconciliation for fiscal year 2017 on August 1, 2017. Calculations supporting the revenue requirements associated with the vegetation management, inspection & maintenance, and qualifying capital investment components are included in the electric ISR Reconciliation.

At the request of the Division I have reviewed the filing for the purpose of verifying the accuracy of the filed revenue requirement associated with the actual FY 2017 activity under the ISR programs. I have noted no exceptions and believe that the filing accurately portrays the actual ISR revenue requirement associated with the FY 2017 electric ISR programs.
