

**Petition to the Rhode Island Public Utilities Commission
89 Jefferson Blvd., Warwick, RI. 02888**

August 22, 2017

In Opposition to the Proposed Rate Hike

“National Grid's request to raise electricity rates by 53% and pass new costs to Rhode Island residents and businesses is unacceptable.

Last year, the company reported profits of \$4.59 billion, a 13% increase for the year. Your responsibility is to Rhode Islanders, not the profits of foreign multinationals.

We the undersigned call on the Public Utilities Commission to put the needs of everyday Rhode Islanders over corporate interests and reject National Grid's proposed rate hike.”
