(2nd Revision – August 17, 2016)

1. Reference the response to DIV-1-3. Please describe what is reflected in the “Water Protection” column of the monthly billing reports.

Response:

1. Three categories are reflected in the Water Protection column:
 - i. Total consumption billed to customers who are not exempt of the Water Protection charge for the month to calculate Water Protection charges.
 - ii. Total billed amount to customers who are not exempt of the Water Protection charge for the month and is calculated based on customer consumption.
 - iii. The number of customers who are billed for Water Protection for the month.

Witness Responsible: C. Heard

2. Reference the response to DIV-1-5:
 - a. Please identify the number of customers that have compound meters.
 - b. Are the rate charges to compound meter customers different than the rates of customers without compound meters?
 - c. If the response to subpart (b) is no, please explain why compound meter customers are not charged for the additional meter(s).

Response:

- a. We have 257 customers with compound meters.
- b. No, the rates are the same.
- c. A compound meter is one meter with two registers so there is only one service charge, which is based on the size of the meter.
