**RE: Docket 4719 - Gas Cost Recovery (GCR) Filing
Monthly Filing of GCR Deferred Balances**

Dear Ms. Massaro:

On behalf of National Grid,¹ enclosed please find 10 copies of the Company's monthly filing of gas costs and gas cost revenue data.

The deferred balance report that is attached covers the 12-month period from November 1, 2017 through October 31, 2018. Based on 11 months of actual data and 1 month of projected data, the projected deferred gas cost balance at the end of October 2018 is an under-recovery of approximately \$24.6 million (see attached Schedule 1, page 1). This calculation is based on the November 1, 2017 starting under-recovery balance of \$14.8 million² plus actual gas costs and gas cost revenue for November 1, 2017 through September 30, 2018, and projected gas costs and gas cost revenue for October 2018. The projected gas costs are updated to reflect the NYMEX strip as of October 5, 2018.

Details of this deferred balance report are provided in the attached schedules. Schedule 1 summarizes the deferred gas cost activity by GCR category and by month. Schedule 2 provides a breakdown of actual gas costs for November 1, 2017 through September 30, 2018, and projected gas costs for October 2018. Schedule 3 summarizes actual and projected gas cost revenue for November 1, 2017 through October 31, 2018. Schedule 4 shows the calculation of working capital. Schedule 5 presents the calculation of inventory finance charges. Schedule 6 presents customer class specific throughput.

The projected deferred balance of \$24.6 million as of October 31, 2018 is an increase of \$1.0 million as compared to the projected deferred balance of \$23.6 million from last month's deferred balance report. The \$1.0 million increase in the projected deferral is the result of (1) a

¹ The Narragansett Electric Company d/b/a National Grid (National Grid or the Company).

² This amount represents the ending balance at October 31, 2017, as filed on November 20, 2017 in Docket No. 4647.

Luly E. Massaro, Commission Clerk
Docket 4719 – GCR Deferred Report
October 19, 2018
Page 2 of 2

\$0.3 million increase in actual gas costs for September 2018, (2) a \$0.6 million decrease in revenue for the month of September 2018, and (3) a \$0.1 million increase in the forecasted gas cost for October 2018.

The projected October 2018 deferred balance of \$24.6 million represents a difference of 14.7 percent of National Grid's projected 2017-18 annual GCR revenues, which exceeds the 5 percent criteria established for evaluating whether the Company's GCR factor should be revised (see National Grid's tariff, RIPUC NG-GAS No. 101, Section 2, Schedule A, Part 1.2). However, this balance is a result of the partial recovery of the projected October 2018 deferral balance presented in the Company's January 26, 2018 Interim GCR filing in Docket No. 4719 through GCR factors approved by the Public Utilities Commission on February 26, 2018, which became effective March 1, 2018. As such, the Company does not intend to further revise its GCR factors.

Thank you for your attention to this matter. If you have any questions, please contact me at 401-784-7415.

Very truly yours,

Robert J. Humm

Line (6): in March 2018 the Company included the actual O&M costs associated with the LNG Storage Units at Cumberland LNG facility.

* The company updated the months of September and October as per Docket No. 4770, effective September 1, 2018
