In Re: Docket No. 4755- Notification of an Energy Efficiency Incentive Greater Than \$3,000,000 - CHP System Package to Naval Station Newport

Dear Luly,

The Division is requesting that the Commission suspend the proposed petition of National Grid in the above entitled matter. The Division seeks time to propound necessary data requests in this matter and review the responses in order to form a reasonable opinion of this proposed petition. Additionally, the Division is aware that the Commission is likely to file discovery which the Division would like the opportunity to review, further necessitating a suspension in this docket.

The effective date of the petition for incentives is June 30, 2018, which simply does not afford the Division with adequate time to review this matter. The Division therefore respectfully requests suspension of the proposed petition

I appreciate your anticipated cooperation in this matter.

Very truly yours,

Jon G. Hagopian
Deputy Chief Legal Counsel
