

PUC 1-41

Request:

Please provide an itemized list of all vehicles leased or purchased by National Grid and the Company. For each vehicle, please provide the make, model, year and rental charge or original book value. In the response, please separate the distribution company vehicles out by Narragansett Electric and Narragansett Gas. For purposes of this question, vehicle includes all equipment used on or off-road for electric or gas operations (i.e., backhoes, trailers, etc.).

Response:

Please see Attachment PUC 1-41 for the requested information. Only the operating companies and the Service Company own or lease any vehicles.

Active (In-Service) Equipment as of 12/15/2017

| Company Name             | Segment Name             | Vehicle Number | Owned/Lease | Make                           | Model    | Year | Original Book Value |

PUC 1-42

Request:

Please provide any policy, written or otherwise, governing the replacement of vehicles for Company use, including any employee-assigned vehicles. For purposes of this question, vehicle includes all equipment used on or off-road for electric or gas operations (i.e., backhoes, trailers, etc.).

Response:

Please see Attachment PUC 1-42 for the requested information.

**National Grid USA**  
**Vehicle Replacement Policy**

**Objective:** To identify the means and approval process for which a company vehicle or equipment can be ordered. Should you at anytime have a question, please contact your nearest Fleet Maintenance Supervisor or Fleet Services Representative for assistance.

**Scope:** The intent of this document is to assist National Grid employees in obtaining a company vehicle when;

- a. Replacing a vehicle at the end of its lifecycle,
- b. Addition to the fleet, and
- c. Replacing a damaged vehicle.

**Criteria:** Company vehicles and equipment have a replacement schedule based on but not limited to age, mileage, utilization, condition, maintenance cost and auction value.

**Annual Replacement Process:**

- Annually, Fleet Services creates a potential replacement list of vehicles and equipment based current lifecycle criteria.
- A forecast of replacement cost and lease expense budget impacts is then developed
- Fleet Asset Management then reviews this list and expense impact for reasonableness and makes adjustments for certain units or types of units that may fall outside standard lifecycle criteria.
- Once this list is finalized it is formally brought to the Sanctioning Committee for approval
- Once approved, Fleet engineers review detailed subsets of the approved package with the departments who use the units to be replaced. This review is done to insure the correct replacement unit is procured
- The sanction process provides for adjustments to the replacement list to accommodate ongoing conditions assessments and vehicle accidents.
- Throughout this process Fleet Engineering is working on updating specifications where necessary as well as working with Procurement to refresh pricing where necessary
- Orders for replacement units are placed throughout the year depending on type of unit, model year considerations, build out and other production schedule considerations

### **Addition to the Fleet Request:**

When there is a need for an addition to the fleet based on manpower needs, replacing a long term rental or increased work load, the following guidelines are to be used:

- a. An Addition to Fleet form must be completed and forwarded to Fleet Engineering for pricing and tracking.
- b. Fleet Engineering will route the form for all necessary approvals
- c. Once approvals have been obtained the Addition will be ordered as soon as practical based on production and build out schedules

### **Replacing a Damaged Vehicle:**

When a motor vehicle accident occurs, an official state vehicle accident report and company report must be completed and returned to your immediate supervisor and your appropriate company Fleet Maintenance Supervisor within 24 hours of occurrence. Once received, Fleet Services will:

- a. Assess the damage and make arrangements to obtain estimates for repair.
- b. Normally a vehicle will be replaced if the repair cost exceeds 50% or more of the vehicle's present market value.
- c. If a replacement unit will be required it will be ordered as soon as practical based on production and build out schedules.

### **Training:**

Fleet Asset will alert Fleet Maintenance and the receiving department prior to a new vehicle's arrival. Fleet Asset will also provide contact information for the new vehicle's supplying vendor.

Fleet Maintenance and the receiving department will coordinate their own training.

Fleet Maintenance will work with the new vehicle supplier and receiving department to determine proper load securement (if required) and coordinate any modifications with the receiving department. Should future load securement issues arise the requesting department will contact Fleet Maintenance for direction.

PUC 1-43

Request:

Please provide an itemized list of all aircraft and watercraft leased or purchased by National Grid, the service companies and the Company. For each aircraft and watercraft, please provide the make, model, year, rental charge and original book value.

Response:

National Grid's subsidiary, Niagara Mohawk Power Corporation, owns the following aircraft:

1. Beechcraft Airplane, Model 1900D, manufactured in 1998 and purchased in 2006 at an original book value of \$4.2 million; and
2. Bell 429 Helicopter manufactured in 2014 and purchased new in 2015 at an original book value of \$8.0 million.

National Grid does not own any aircraft or watercraft.

Neither the Service Company nor The Narragansett Electric Company lease or own any aircraft or watercraft. The Service Company receives a rental charge from Niagara Mohawk Corporation for its use of the airplane which in turn is allocated to the operating companies, including The Narragansett Electric Company. The Narragansett Electric Company incurred \$24,289 in airplane rental charges during the test year (\$18,458 for Electric and \$5,831 for Gas).

PUC 1-45

Request:

Please provide a list of all organizations to which the Company pays dues, whether directly or as a part of a corporate allocation in the Test Year. For each organization, please indicate the purpose of membership in the organization.

Response:

Please see Attachment PUC 1-45 detailing dues and memberships paid directly by National Grid or as part of a corporate allocation from the Service Company during the test year, which is the twelve-month period ending June 30, 2017.

Dues and memberships are summarized by vendor with the purpose of membership in the organization.

The Narragansett Electric Company  
Dues and memberships
