- m. Payers who have scheduled a payment or registered for AutoPay will receive email notification from the Service of pending payments.
- n. The Service includes shopping cart functionality.
- o. The Service will allow the Payer the option to elect paperless billing.
- p. A Payer registered for paperless billing will be automatically placed back on paper billing if their email address is undeliverable; notification of the Payer's undeliverable email address will be sent to Biller via email.
- q. The Service complies with Federal E-Signature Act for paperless billing and AutoPay by providing a system in which a Payer must confirm enrollment in paperless billing and/or AutoPay by responding to an email sent after the Payer registers for paperless billing and/or AutoPay through online self-service.

4. **Biller Portal**

The Biller Portal is an administrative portal where Biller staff will have secure access to reporting, search customers, search invoices, search payments, initiate payments or credits, login as a Payer, modify email templates, etc.

- a. Biller can log in as the Payer on either the Biller or Payer Portal and make a payment on behalf of the Payer. There is an audit trail for who made the payment, and the source of every payment (CSR, Pay by Text, AutoPay, Web, IVR, etc.).
- b. Biller will have the capability of blocking future payments by specific Payer and payment method type (i.e. Credit Card or E-Check (ACH)).
- c. **Permissions** – The Biller Portal includes a table of role based permissions, determined by the Biller's System Administrator. Each permission is applied to a user ID on an individual basis to maximize flexibility. The system administrator can allow or disallow access to functions such as viewing data, creating reports, resending email notices, processing payments, credits or refunds, editing email templates and more. Since it is controlled by Biller administrator, changes can be made quickly on an as needed basis.
- d. **Administrative Email Notifications** - Biller may set up the system to send several administrative notifications and request system notifications be sent to multiple staff members. This allows different departments to get the information they need in a timely manner. The notifications include:
 - ACH Reject Notifications
 - Batch Close Notifications
 - Daily Management Report
 - File Processing Notifications
 - Month End Billing Invoice

- Paperless Customer Email Bounce Daily Report
 - Request System Notifications (this is the ticketing system available in the Invoice Cloud payer portal).
 - Status Notifications (notifications of planned outages, new features, etc.)
- e. **Biller Controlled Configuration Options** – The Biller Portal includes several Biller controlled configurable options to customize the way payments and customer accounts are handled. The Biller will be able to configure for:
- allowing Auto-Pay and scheduled payments
 - allowing customers to update their phone or mailing address through the payer portal
 - allowing customers to pay less than, or more than the balance due based on receivable type
 - updating Refund Policy description
 - updating customer service phone number

5. **Biller Portal - Reporting**

Biller can access a selection of pre-configured reports. Biller can request reports for daily, monthly, or date range activity. Most reports can be exported to excel files or scheduled for download as a custom report, as indicated by asterisk (*) in the report name. All stored payment data is truncated and this is reflected in all reports.

7. **Business Rules**

The Invoice Cloud solution is designed to allow maximum flexibility for customers and Billers. There are many rules currently available and we will also undertake the creation of new business rules. Each bill type operates independently and can accept different payment types as well as other business rules. At Biller's option, multiple business rules can be applied to each bill type. Invoice Cloud provides flexibility regarding business rules to support specific needs, including:

- a. Ability to allow partial payments, over payments, full balance only, or late fees.
- b. Ability to allow payments beyond the due date - The service is designed to accommodate biller specific business rules like allowing payments beyond their due date.
- c. Ability to allow for multiple payment types for one customer for the same bill - The service allows multiple payment types from one customer for the same bill when partial payments are allowed. Credit/debit card and e-check (ACH) can be run separately and an unlimited number of remittance types can be used. For example, a customer can pay part of a bill with a checking account, another part with a credit card and the remainder with a second credit card of a different type.

8. Implementation Process

Invoice Cloud assigns an Implementations Manager (IM) to each Biller. The IM will be the Biller's primary contact during the implementation process and coordinates all necessary resources from Biller, Biller software company, Invoice Cloud, and any sub-contractors. The IM will provide the Biller with the following documents to facilitate the project:

- a. **New Biller Questionnaire & Questionnaire Key** – Documents critical information needed to setup and initiate the service including information on business rules and feature selection.
- b. **Project Timeline** – Details project schedule and milestones.
- c. **Testing & Training Plan** – This plan walks the Biller through a set of user acceptance testing criteria and facilitates training on the service.

9. Support & Training

- a. **Business Hours** – The business hours will be Monday through Friday from 8 a.m. to 8 p.m. Eastern Standard Time. Note: Biller Support hours are 8 a.m. to 8 p.m. EST. Payer Support hours are currently 8 a.m. to 4 p.m. EST.
- b. **Help Desk** - The Service will provide a helpdesk ticketing system for Biller within the Biller Portal to get help from Invoice Cloud client support team. This tool will allow Biller to track and retain resolutions for historical reference.
- c. **Payer Support** – The Payer Support is two tiered with Biller staff as the first line of support regarding account, registration and billing questions. Issues with the Invoice Cloud service operation or incorrect credit card charges will be routed to Invoice Cloud Client Support via telephone or a Biller helpdesk ticket.
- d. **Biller Support** - If Biller encounters an inquiry which they cannot resolve Biller will create a helpdesk support ticket. Invoice Cloud Customer Support will resolve the issue and if applicable provide training to Biller on how to resolve that type of issue in the future. Invoice Cloud will make reasonable efforts to resolve tickets in a timely matter; most tickets will be resolved within twenty-four (24) business hours. Biller and technical support is available during business hours.
 - i. **Routine Technical Support** - Technical Support is available during business hours. Biller may call customer support directly; however, the use of the helpdesk ticketing system is encouraged as the preferred method of contact. Invoice Cloud staff views all tickets as they are submitted and routes them to the appropriate person for resolution.
 - ii. **Emergency After-Hours Support** – The helpdesk service is monitored after business hours and emergency support issues are addressed within one (1) hour. An emergency support issue is defined as an issue involving the system being down and inoperable and does not include Payer payment issues. Biller may request email notification be provided in the event the system is down and inoperable.
- e. **Service Enhancements** - Most enhancements do not require action on the part of Biller. Upgrades are done at the Invoice Cloud server level, so there are no mandatory actions for Biller to take. Support levels are not affected by enhancements.
- f. **Biller Training**- Biller staff will be guided in how to use the system through in house training, documentation, remote live sessions, and access to our client support team.
 - All standard training will be done remotely. Invoice Cloud's training personnel will provide sessions for both Payer and Biller portals for City staff.
 - Separate training is conducted for Biller's technical staff regarding the uploading of bill files and any other applicable processes.
 - Ongoing phone and Go-To-Meeting training will be provided during the first *month of use at no additional cost to Biller.*
