Gas Infrastructure, Safety, and Reliability Plan FY 2020 Docket 4916

The Narragansett Electric Company d/b/a National Grid (“Narragansett” or “the Company”) submitted its Fiscal Year 2020 Infrastructure, Safety, and Reliability (ISR) Plan on December 20, 2018. Calculations supporting the revenue requirements associated with the safety and reliability expenses and qualifying capital investment components are included in the Gas ISR Plan.

Based on my review, I believe the revenue requirement associated with the filed FY 2020 Gas ISR Plan is reasonably calculated for effect April 1, 2019, subject to the future reconciliation of the FY 2020 Plan revenue requirement.
