**Subject:** Docket 4929 - DWW PPA - Notification and request for assistance

Hi Andrew,

Under R.I. Gen. Laws Sec. 39-31-6(1)(vi)(B), the PUC shall notify the DEM, Commerce and OER of the filing of a PPA entered into by National Grid under ACES along with the schedule for hearings, the procedural schedule, and advisory opinion deadlines. Please accept this as the PUC's notification to OER of the filing, found here: <http://www.ripuc.org/eventsactions/docket/4929page.html>. As you are aware, the pre-hearing conference is scheduled for Friday, February 22, 2019 at 10:00 a.m. in hearing room A at the PUC. A schedule will be set at that time and will include the deadline for filing advisory opinions. The statute requires the OER to provide an advisory opinion on the expected energy security, reliability, environmental, and economic impacts resulting from the contract.

I am sending this notification somewhat informally as I know the OER is already aware of the filing and the advisory opinion requirement.

I wonder if you also have good contact information for DEM and Commerce. While I plan to send Janet a letter, I am not sure if there is a legal counsel I should also be including at DEM. I also am not clear to whom at Commerce I should send the notification. Any assistance would be greatly appreciated.

Thanks, Cindy
