RE: Docket 4963 - Gas Cost Recovery (GCR) Filing Monthly Filing of GCR Deferred Balances

Dear Ms. Massaro:

On behalf of National Grid,¹ enclosed please find the Company's monthly filing of gas costs and gas cost revenue data.

The deferred balance report that is attached covers the 12-month period from November 1, 2019 through October 31, 2020. Based on ten months of actual data and two months of projected data, the projected deferred gas cost balance at the end of October 2020 is an underrecovery of approximately \$8.4 million (*see* attached Schedule 1, page 1). This calculation is based on the November 1, 2019 starting over-recovery balance of \$1.9 million² plus actual gas costs and gas cost revenue for November 2019 through August 2020, and projected gas costs and gas cost revenue for the period September 2020 through October 2020.

Details of this deferred balance report are provided in the attached schedules. Schedule 1 summarizes the deferred gas cost activity by GCR category and by month. Schedule 2 provides a breakdown of actual gas costs for November 2019 through August 2020, and projected gas costs for September 2020 through October 2020. Schedule 3 summarizes actual and projected gas cost revenue for November 1, 2019 through October 31, 2020. Schedule 4 shows the calculation of working capital. Schedule 5 presents the calculation of inventory finance charges. Schedule 6 presents customer class specific throughput.

¹ The Narragansett Electric Company d/b/a National Grid (National Grid or the Company).

² This amount represents the ending balance at October 31, 2019, as filed on November 18, 2019 in Docket No. 4872.

Robinson+Cole

September 18, 2020 Page 2

The projected deferred under-recovery balance at the end of October 2020 of \$8.4 million is an increase of approximately \$0.3 million in the deferred under-recovery balance as compared to the projected deferred under-recovery balance of \$8.1 million from last month's deferred balance report. The increase in the projected deferred under-recovery balance from last month's report is due to an increase of \$0.2 million in actual gas cost, a decrease of \$0.4 million in forecasted gas cost for September 2020 through October 2020, and a decrease in gas cost revenue for August 2020 of approximately \$0.5 million.

The projected deferred under-recovery balance at the end of October 2020 of \$8.4 million represents a difference of 5.9 percent of the Company's projected 2019-20 annual GCR revenue, which slightly exceeds the 5 percent criteria established for evaluating whether the Company's GCR factor should be revised (*see* the Company's tariff, RIPUC NG-GAS No. 101, Section 2, Schedule A, Part 1.2). However, the Company is not proposing to revise its GCR factor at this time as the projected deferred balance is only slightly above the 5 percent threshold and has been deferred for recovery to the 2020-2021 Gas Cost Recovery filing submitted on September 1, 2020.

Thank you for your attention to this matter. If you have any questions, please contact me at 401-709-3337.

Very truly yours,

Leticia Pimentel
