## VIA HAND DELIVERY & ELECTRONIC MAIL

Luly E. Massaro, Commission Clerk  
Rhode Island Public Utilities Commission  
89 Jefferson Boulevard  
Warwick, RI 02888

**RE: Docket 4963 - Gas Cost Recovery (GCR) Filing**  
**Monthly Filing of GCR Deferred Balances**

Dear Ms. Massaro:

On behalf of National Grid,<sup>1</sup> enclosed please find 10 copies of the Company's monthly filing of gas costs and gas cost revenue data.

The deferred balance report that is attached covers the 12-month period from November 1, 2019 through October 31, 2020. Based on four months of actual data and eight months of projected data, the projected deferred gas cost balance at the end of October 2020 is an under-recovery of approximately \$9.7 million (*see* attached Schedule 1, page 1). This calculation is based on the November 1, 2019 starting over-recovery balance of \$1.9 million<sup>2</sup> plus actual gas costs and gas cost revenue for November 2019 through February 2020, and projected gas costs and gas cost revenue for the period March 2020 through October 2020.

Details of this deferred balance report are provided in the attached schedules. Schedule 1 summarizes the deferred gas cost activity by GCR category and by month. Schedule 2 provides a breakdown of actual gas costs for November 2019 through February 2020, and projected gas costs for March 2020 through October 2020. Schedule 3 summarizes actual and projected gas cost revenue for November 1, 2019 through October 31, 2020. Schedule 4 shows the calculation of working capital. Schedule 5 presents the calculation of inventory finance charges. Schedule 6 presents customer class specific throughput.

---

<sup>1</sup> The Narragansett Electric Company d/b/a National Grid (National Grid or the Company).

<sup>2</sup> This amount represents the ending balance at October 31, 2019, as filed on November 18, 2019 in Docket No. 4872.

March 19, 2020

Page 2

The projected October 2020 deferred balance under-recovery of \$9.7 million is an increase of approximately \$8.0 million in the deferred under-recovery balance as compared to the projected deferred under-recovery balance of \$1.7 million from last month's deferred balance report. The increase in the projected deferred under-recovery balance is due to an increase of \$0.6 million in actual gas cost, a decrease in gas cost revenue for February 2020 of \$7.0 million, and an increase of approximately \$0.4 million in forecasted gas costs for March 2020 through October 2020.

The projected October 2020 deferred balance under-recovery of \$9.7 million represents a difference of 6.9 percent of the Company's projected 2019-20 annual GCR revenues, which exceeds the 5 percent criteria established for evaluating whether the Company's GCR factor should be revised (*see* the Company's tariff, RIPUC NG-GAS No. 101, Section 2, Schedule A, Part 1.2). However, the increase of \$8.0 million in the projected deferred balance at October 31, 2020 does not reflect \$4.1 million in incremental gas cost revenue that National Grid anticipates billing in March 2020 as a result of the lag in billing customers on a cycle basis.<sup>3</sup> The additional billed revenue in March 2020 would reduce the deferred balance from \$9.7 million to \$5.6 million, resulting in a difference between the projected October 2020 deferred balance and the projected 2019-20 annual GCR revenues of 4.0 percent, which is less than the 5 percent threshold.

Thank you for your attention to this matter. If you have any questions, please contact me at 401-709-3337.

Very truly yours,

Leticia C. Pimentel

cc: Docket 4963 Service List  
Leo Wold, Esq.  
Al Mancini  
John Bell

---

<sup>3</sup> National Grid has determined the billing lag by comparing the actual/projected Unaccounted for Gas (UFG) for the period February 2020 through October 2020 of 5.1 percent with the forecasted UFG for the period November 2019 through October 2020 of 2.2 percent. National Grid calculated an estimate of the incremental revenue of \$4.1 million by first determining the incremental billed volume required to reduce the actual/projected UFG from 5.1 percent to 2.2 percent (789,000 dekatherms), and then multiplying the incremental volumes by the approved GCR rate, excluding the uncollectible adjustment.

Certificate of Service

I hereby certify that a copy of the cover letter and any materials accompanying this certificate was electronically transmitted to the individuals listed below.

The paper copies of this filing are being hand delivered to the Rhode Island Public Utilities Commission and to the Rhode Island Division of Public Utilities and Carriers.
