RE: Docket 4963 - Gas Cost Recovery (GCR) Filing Monthly Filing of GCR Deferred Balances

Dear Ms. Massaro:

On behalf of National Grid,¹ enclosed please the Company's monthly filing of gas costs and gas cost revenue data.

The deferred balance report that is attached covers the 12-month period from November 1, 2019 through October 31, 2020. Based on seven months of actual data and five months of projected data, the projected deferred gas cost balance at the end of October 2020 is an under-recovery of approximately \$6.6 million (*see* attached Schedule 1, page 1).² This calculation is based on the November 1, 2019 starting over-recovery balance of \$1.9 million³ plus actual gas costs and gas cost revenue for November 2019 through May 2020, and projected gas costs and gas cost revenue for the period June 2020 through October 2020.

Details of this deferred balance report are provided in the attached schedules. Schedule 1 summarizes the deferred gas cost activity by GCR category and by month. Schedule 2 provides a

¹ The Narragansett Electric Company d/b/a National Grid (National Grid or the Company).

² National Grid has revised the actual monthly deferred gas cost balance for March 2020 to reflect a true-up to the actual LNG operation and maintenance (O&M) costs incurred for the period April 2019 through March 2020, pursuant to the Settlement Agreement in Docket No. 4770. In addition, the Company has updated the actual monthly deferred gas cost for March 2020 to reflect the actual credits earned by customers as of March 31, 2020, as reflected in the Company's fiscal year 2020 NGPMP Annual Report filed on June 2, 2020 in Docket No. 4038.

³ This amount represents the ending balance at October 31, 2019, as filed on November 18, 2019 in Docket No. 4872.

Robinson+Cole

June 19, 2020 Page 2

breakdown of actual gas costs for November 2019 through May 2020, and projected gas costs for June 2020 through October 2020. Schedule 3 summarizes actual and projected gas cost revenue for November 1, 2019 through October 31, 2020. Schedule 4 shows the calculation of working capital. Schedule 5 presents the calculation of inventory finance charges. Schedule 6 presents customer class specific throughput.

The projected October 2020 deferred balance under-recovery of \$6.6 million is a decrease of approximately \$6.5 million in the deferred under-recovery balance as compared to the projected deferred under-recovery balance of \$13.1 million from last month's deferred balance report. The decrease in the projected deferred under-recovery balance from last month's report is due primarily to (1) receipt of a \$2.7 million refund from Texas Eastern Transmission, LP, resulting from their Compliance Filing – Revised Tariff Records filed on April 21, 2020 in FERC Docket No. RP19-343-000, (2) an increase in gas cost revenues for May 2020 of \$4.4 million, offset by (3) an increase of \$0.5 million in forecasted gas costs for June 2020 through October 2020.

The projected October 2020 deferred balance under-recovery of \$6.6 million represents a difference of 4.7 percent of the Company's projected 2019-20 annual GCR revenues, which does not exceed the 5 percent criteria established for evaluating whether the Company's GCR factor should be revised (*see* the Company's tariff, RIPUC NG-GAS No. 101, Section 2, Schedule A, Part 1.2).

Thank you for your attention to this matter. If you have any questions, please contact me at 401-709-3337.

Very truly yours,

Leticia C. Pimentel
