

**STATE OF RHODE ISLAND  
PUBLIC UTILITIES COMMISSION**

**IN RE: PASCOAG UTILITY DISTRICT  
2020 DEMAND SIDE MANAGEMENT**

**:  
:**

**Docket No. 4991**

**COMMISSION'S FIRST SET OF DATA REQUESTS  
DIRECTED TO THE DIVISION OF PUBLIC UTILITIES AND CARRIERS  
(Reallocation of Funds)  
(August 19, 2020)**

**Please reply no later than August 26, 2020, if possible.**

1. Given that Pascoag DSM spending to date for 2020 is significantly below budget, would the Division object to reallocating a portion of 2020 DSM funds to further reduce the payable balance the DSM program has to the District for the LED streetlight project?
  - a. If the Division does object to such reallocation, why?
  - b. If the Division would not object to such a reallocation, what amount would the Division recommend be reallocated? Please explain.

**Response:**

The Division does not object to reallocating a portion of 2020 DSM funds to further reduce the payable balance the DSM program has to the District for the LED streetlight project. The Division has reviewed Pascoag's Responses to the Commission's 1<sup>st</sup> Set of Data Requests and finds that Pascoag's request to wait until its 2021 Full Year Budget filing this November to determine an exact amount to reallocate to the LED streetlight project is reasonable.
