

STATE OF RHODE ISLAND  
PUBLIC UTILITIES COMMISSION

IN RE: The Narragansett Electric Co.  
d/b/a National Grid's Gas Long-Range  
Resource and Requirements Plan for  
the Forecast Period 2020/21 to 2024/25

Docket No. 5043

**MOTION FOR INTERVENTION**  
**OF CONSERVATION LAW FOUNDATION**

I. Introduction

The Conservation Law Foundation (“CLF”), pursuant to Public Utilities Commission (“PUC” or the “Commission”) Rules of Practice and Procedure 1.13(a) and (b), respectfully files its (CLF’s) Motion for Intervention in this Docket.

On June 30, 2020, The Narragansett Electric Company d/b/a National Grid filed with the Commission its Gas Long-Range Resource and Requirements Plan for the Forecast Period 2020/21 to 2024/25. In response, the PUC opened this Docket No. 5043.

Pursuant to PUC Rule of Practice and Procedure 1.15(b), CLF contacted National Grid (“Grid”) and the Division of Public Utilities and Carriers (the “Division”) to determine whether either of these entities has an objection to CLF’s proposed intervention in this Docket. Grid has indicated that it has no objection. The Division has indicated that it plans to file an objection.

II. The Intervenor

CLF is New England’s leading environmental advocacy organization. Since 1966, CLF has worked to protect New England’s people, natural resources, and communities.

CLF is a nonprofit, member-supported organization with offices throughout New England. The Rhode Island CLF office is located at 235 Promenade Street, Suite 560, in Providence.

CLF promotes clean, renewable, and efficient energy production throughout New England and has an unparalleled record of advocacy on behalf of the region's environmental resources. As part of its 50-year legacy, CLF was a party in the landmark case in which the U.S. Supreme Court ruled that the U.S. Environmental Protection Agency has an obligation under the Clean Air Act to consider regulating tailpipe emissions that contribute to global warming. Massachusetts v. E.P.A., 127 S. Ct. 1438 (2007). CLF obtained an injunction to stop drilling for oil and gas on the environmentally sensitive Georges Bank, Conservation Law Foundation v. Sec'y of the Interior, 790 F.2d 965 (1st Cir. 1986); litigated to ensure enforcement of an earlier settlement agreement in a case stemming from the Big Dig, which settlement agreement required 20 public transit projects in and around Boston including construction of additional subway and rail lines, Conservation Law Foundation v. Romney, 421 F. Supp.2d 344 (D. Mass. 2006); and successfully advanced legal strategies to restore groundfish to the Gulf of Maine and southern New England waters. Conservation Law Foundation v. Evans, 211 F. Supp.2d 55 (D.D.C. 2002).

In Rhode Island, CLF and its members have a keen and active interest in ensuring that the state meets its carbon emission reduction goals set forth in the Resilient Rhode Island Act, R.I. Gen. Laws § 42-6.2-1, et seq. According to the state's own emissions accounting, the burning of fossil fuels for heat accounts for over a third of state greenhouse

gas emissions. See R.I. Dep't of Env'tl. Mgmt., 2016 Rhode Island Greenhouse Gas Emissions Inventory 7 (2019). Under R.I. Gen. Laws § 39-24-2, the long-range energy plan Grid presents to the Commission in this Docket must include peak gas demand forecasts, annual sales, major proposed additions to plant, and an analysis of the cost and financing of any proposed additions to plant or purchases. Since natural gas is a powerful contributor to the state's overall carbon emissions profile, CLF and its member have a strong interest in certain component portions of this docket.

### III. The Standard Governing this Motion

Intervention in PUC proceedings is governed by PUC Rule of Practice and Procedure 1.13.

PUC Rule of Practice and Procedure 1.13(b) states, in relevant part, that “any person claiming . . . an interest of such a nature that intervention is . . . appropriate may intervene in any proceeding before the Commission.”

PUC Rule of Practice and Procedure 1.13(e) states, in relevant part, that “all timely motions to intervene not objected to by any party within ten (10) days of service of the motion for leave to intervene shall be deemed allowed . . .”

As noted above, CLF has contacted Grid and the Division to determine whether any has an objection to CLF's proposed intervention in this Docket. Grid has indicated that it has no objection. The Division has indicated that it plans to file an objection.

#### IV. CLF's Interest in This Proceeding

CLF is a membership organization, and CLF and its members have a keen interest in certain aspects of this proceeding as they relate to greenhouse gas emissions.

CLF was a full party in the most recent PUC gas and electricity rate case, Docket No. 4470; and in the concurrent Power Sector Transformation case, Docket No. 4480.

In addition, CLF has participated, without objection from any party, in many other previous PUC Dockets. These include Docket No. 3659 (setting Rules pursuant to R.I. Gen. Laws § 39-26-1, et seq., the state's Renewable Energy Standard, or RES); Docket No. 3765 (considering Grid's 2007 RES compliance procurement); Docket No. 3901 (considering Grid's 2008 RES procurement); Docket No. 4012 (considering Grid's 2009 RES procurement); Docket No. 3932 (Grid's Least Cost Procurement Plan pursuant to R.I. Gen. Laws § 39-1-27.7); Docket No. 4111 (first of two dockets concerning Deepwater Wind's proposed Block Island demonstration wind project); and Docket No. 4185 (second of two dockets concerning Deepwater Wind's proposed Block Island demonstration wind project).

CLF has extensive experience with matters related to gas and electricity markets. As a result of this history, both in Rhode Island and in the rest of New England, CLF can play a constructive and helpful role in this Docket.

Moreover, the participation in this proceeding of a public interest organization such as CLF will serve the public interest. See, generally, John E. Bonine, Public Interest Environmental Lawyers: Global Examples and Personal Reflections, 10 Widener L. Rev.

451 (2004) (emphasizing the constructive and salutary role of public-interest environmental lawyers in a wide range of legislative, judicial, and regulatory fora).

V. Conclusion

WHEREFORE, for the foregoing reasons, CLF respectfully requests that its motion to intervene in this Docket be granted.

CONSERVATION LAW FOUNDATION,  
by its Attorney,
