Re: Docket No. 5059

Dear Ms. Massaro,

The Division of Public Utilities and Carriers (“Division”) has reviewed the Application to Change Existing Terms and Conditions for Nonregulated Power Producers that was filed by The Narragansett Electric Company, d/b/a National Grid (“National Grid” or “Company”) dated August 11, 2020. In undertaking its review of the proposed amendments to RIPUC No. 2223 reflected in the filing, the Division has not engaged a professional consultant. Therefore, the Division’s recommendation is not intended to reflect an expert opinion as to propriety of the proposed tariff changes.

The Division has reviewed the proposed amendments, and briefly discussed them with the Company on August 25, 2020. Subject to the limitations described herein, and, as assessed from an overall standard of reasonableness, the Division believes the proposed tariff changes are not unreasonable, and therefore, recommends their approval.

Very truly yours,
