Docket No. D-13-105

With heavy heart I find the need to address the issue of the ferry service to Prudence Island.

I have used the ferry service for well over 60 years and yes we have had our problems but they have always pulled thru for us and provided service.

The current ferry crew is more than helpful and courteous and for me and my family easy to approach and over the last several years, under Eric's management, they are operating the best I've ever seen.

They also have a back up vessel in case of break downs of the main ferry and will, have, run multiple trips to accommodate the smaller load capacity.

One would have to have grown up and known Mr. Medley to understand the way he acts and what he sometimes says, (take it with a grain of salt.)

To address the restroom issue, the current vessel has one, but has been kept locked as those

who used it were, excuse the pun, piss poor shots and the deck hands couldn't or wouldn't keep up with keeping it clean and more than once I heard it said "I'll go in my pants before I go in that" not the crews fault but the people who used it.

It's to bad this issue has come up because its putting friends against friends and on a small island community this causes a lot of heart ache and hard feelings, but right is right and I support Puulunc Ferry Inc.
