

**STATE OF RHODE ISLAND PUBLIC UTILITIES COMMISSION**

**IN RE: INVESTIGATION INTO THE TREATMENT** :  
**OF STORAGE AS AN ELECTRIC DISTRIBUTION** : **DOCKET NO. 5000**  
**SYSTEM RESOURCE** :

**INVITATION TO STAFF-LED STAKEHOLDER MEETING**

The Rhode Island Public Utilities Commission (PUC) staff will conduct a storage stakeholder technical workshop on **Tuesday, January 10, 2023**. The workshop is part of a series of meetings convened by the PUC to inform its report to the General Assembly regarding energy storage resources.

The workshop is scheduled for 10 AM to 3 PM on Tuesday, January 10, 2023 in Hearing Room A of the Public Utilities Commission office building, located at 89 Jefferson Blvd., Warwick, RI. The workshop will be conducted in-person and will be open to the public. At this workshop, PUC staff will lead participants in a review of stakeholders' responses to the 4600 Worksheet (assigned at the December 12, 2022 workshop). Staff will present their own responses to the 4600 Worksheet. Then, participants and staff will analyze the magnitude of each storage benefit from the 4600 Worksheet and will rank them by magnitude. If time allows, staff will lead participants in a discussion of mutual exclusivity and technical barriers regarding the top-ranked (i.e. greatest magnitude) storage benefits.

Meeting materials will be uploaded to the Docket No. 5000 webpage at:  
<https://ripuc.ecms.ri.gov/eventsactions/docket/5000page.html>
